PREFACE

PREFACE

This report on qualifications, salaries and experience of teachers in public elementary and secondary schools was prepared annually since 1964, except for the years 1967-68, 1968-69, 1969-70, 1970-71, 1971-72 and 1972-73. Data for these three years are included in the historical tables of this report.

The report on the qualifications of teachers in public elementary and secondary schools was prepared annually since 1964, except for the years 1967-68, 1968-69, 1969-70, 1970-71, 1971-72 and 1972-73. Data for these three years are included in the historical tables of this report.

## SALARIES AND QUALIFICATIONS OF TEACHERS IN PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

## TRAITEMENTS ET QUALIFICATION DES INSTITUTEURS DES ÉCOLES PUBLIQUES ÉLÉMENTAIRES ET SECONDAIRES

1968 - 69

Teacher data for the province of Quebec have previously been made available from the Quebec Department of Education as a form complement to those for other provinces. However, the Quebec Department publishes a series of statistical reports entitled *Statistique de l'enseignement*, the latest of which include information on teachers for 1968-69.

Le ministère de l'Éducation du Québec ne fournit pas d'information sur les instituteurs de cette province, complément à celle des autres provinces. Toutefois, le ministère publie une série de rapports statistiques intitulés *Statistique de l'enseignement*, dont le plus récent comprend des renseignements sur les instituteurs pour l'année 1968-69.

In the current edition of this report, as in previous ones, data on teachers in the Yukon, Northwest Territories, Indian Schools, and I.N.D. Schools (Therapeutic Units) are not included with the data for the provinces and territories.

Dans la présente édition du rapport, comme dans les éditions précédentes, les données sur les instituteurs des Territoires du Nord-Ouest, des Écoles indiennes et des Écoles I.N.D. (Unités thérapeutiques) ne sont pas incluses avec les données des provinces et territoires.

## PREFACE

A report on qualifications, salaries and experience of teachers in public elementary and secondary schools has been published annually since 1939, except for the years 1950 - 51, 1951 - 52 and 1955 - 56. Basic data for these three years are contained in the historical tables of this report.

As one result of the Federal-Provincial Conference on the Statistics of Education held in May 1952, a standard questionnaire for recording teacher-data was introduced in the fall of that year by all provinces except Quebec and Ontario. In 1959, the Ontario Department of Education began using a similar form and up to and including 1967-68 provided DBS with teacher-data roughly comparable to those available for the other provinces.

Because the Ontario Department of Education did not collect teacher-data for the school year under review (1968 - 69), statistics for that province are not included in this report.

Teacher-data for the province of Quebec have generally not been available from the Quebec Department of Education in a form comparable to those for other provinces. However, the Quebec Department publishes a series of statistical reports entitled *Statistiques de l'enseignement*, the latest of which include publications on teachers for 1966 - 67.

In the current edition of this report, as in previous ones, data on teachers of the Yukon, Northwest Territories, Indian Schools, and D.N.D. Schools Overseas have not been integrated with the statistics for the provincial school systems. They are given in a separate section.

This report was prepared in the Elementary-Secondary Section, Education Division. Requests for additional data or suggestions for improvement of the report, should be directed to the Director of the Education Division or to the Chief of the Elementary-Secondary Section.

WALTER E. DUFFETT,

*Dominion Statistician.*

## PRÉFACE

Un rapport sur la qualification, le traitement et l'expérience des instituteurs des écoles publiques élémentaires et secondaires a été publié chaque année depuis 1939, sauf pour les années scolaires 1950-51, 1951-52 et 1955-56. Les tableaux chronologiques du présent rapport comprennent les principales statistiques de ces trois années.

A la suite de la Conférence fédérale-provinciale sur la statistique de l'enseignement, en mai 1952, un nouveau questionnaire a été établi à l'automne de la même année et toutes les provinces, sauf le Québec et l'Ontario, l'utilisent. En 1959, l'Ontario a adopté un questionnaire semblable et cette province fournit au B.F.S. jusqu'en 1967-68 inclusivement des données comparables à celles des autres provinces.

Comme le ministère de l'Éducation de l'Ontario n'a pas recueilli de données sur les instituteurs pour l'année scolaire en revue (1968-69), les statistiques de cette province ne sont pas comprises dans le présent rapport.

Le ministère de l'Éducation de Québec ne fournit pas d'habitude des statistiques sur les instituteurs de cette province comparables à celles des autres provinces. Toutefois, ce ministère publie une série de rapports statistiques intitulée "Statistiques de l'enseignement" dont la plus récente comprend des publications sur les instituteurs pour l'année 1966-67.

Dans la présente édition du rapport, comme dans les rapports antérieurs, les données sur les instituteurs du Yukon et des Territoires du Nord-Ouest, des écoles indiennes et des écoles de la Défense nationale outre-mer n'ont pas été intégrées aux statistiques de l'enseignement provincial; elles paraissent dans une section distincte du rapport.

Le présent rapport a été rédigé par la Section de l'enseignement élémentaire-secondaire de la Division de l'éducation. Toute demande de renseignements supplémentaires ou suggestion visant à améliorer le rapport doit être adressée au directeur de la Division de l'éducation ou au chef de la Section de l'enseignement élémentaire-secondaire.

WALTER E. DUFFETT,

*Statisticien fédéral.*

### SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or negligible.
- x percentiles or percentages not calculated  
(number of classified teachers less than  
30); individual salary not shown.

### SIGNES CONVENTIONNELS

Signification des signes utilisés dans les tableaux de la présente publication:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou négligeable.
- x percentiles ou pourcentages non calculés  
(nombre d'instituteurs classés moindre que  
30); traitement particulier non indiqué.

## INTRODUCTION

### Count of Teachers

The data of this report cover only school principals and full-time teachers instructing elementary and secondary grades in public schools. Differences between the counts reported by certain provinces and the numbers in this report result, for the most part, from this definition. Whereas some of the provincial departments of education account for every teacher, full-time and part-time employed for any period of time during the school year and may count two or more teachers for one position, in this report attempts are made to avoid duplications of teaching positions, *i.e.*, one teacher is counted for each full-time teaching position. Teachers, supervisors of special subjects and classes, principals, supervising principals, assistant principals and substitute teachers are included, provided they are full-time employees on an annual salary. Excluded are superintendents, inspectors and supervisors employed by the provinces or by the school boards; psychologists, attendance officers and others involved in pupil-personnel services or non-teaching fields; and part-time teachers paid on a daily basis.

In the context of this report, the word "teacher" is meant to include principal, vice-principal, department head and subject supervisor unless otherwise stated. Similarly, the term "principal" is used to include vice-principal and department head.

In all tables of this report except Tables 10, 15 - 16, teachers in Roman Catholic separate schools are not shown separately from those in the public schools. R.C. religious teachers are similarly included in all tables, even though they may also be shown separately as in Table 13 and 14.

The teachers shown as "unclassified" in some of the detail tables are those who completed a return but failed to report the item under consideration in the particular table.

For the purpose of this report, public schools are those operated by local school boards or boards of education, and supported by local taxation including the Roman Catholic and Protestant separate schools, where such exist, and the denominational schools of Newfoundland. Teachers in private schools and in special schools operated directly by provincial governments are not included.

### Size of School Board

From 1953 - 54 to 1967 - 68 many characteristics of the teaching force outlined in this report were categorized according to size of urban centre or according to size of school in rural areas. This

### Nombre d'instituteurs

Les données du rapport ne visent que les **directeurs et les instituteurs à plein temps qui enseignent dans les classes élémentaires et secondaires publiques**. Les différences entre les totaux déclarés par certaines provinces et ceux du présent rapport sont dues, en grande partie, à cette définition. Certaines provinces comptent chaque instituteur, à plein temps ou à temps partiel, même s'il n'a enseigné qu'une partie de l'année, et peuvent aussi compter deux instituteurs ou plus dans le même poste, mais on a tenté ici d'éviter le double emploi des postes d'enseignement, *i.e.*, un instituteur est compté dans chaque poste à plein temps. Les instituteurs, surveillants de matières et classes spéciales, directeurs, directeurs-surveillants, directeurs adjoints et instituteurs suppléants sont inclus, pourvu qu'ils soient employés à plein temps et touchent un traitement annuel. Sont inclus les surintendants, les inspecteurs et les surveillants à l'emploi des provinces ou des commissions scolaires; les psychologues, les contrôleurs des absences et les autres personnes en cause dans les services visant les élèves et le personnel ou qui se consacrent à d'autres tâches que l'enseignement, ainsi que les instituteurs à temps partiel qui sont rémunérés à la journée.

Dans le présent rapport, le mot "instituteurs" comprend le directeur, le directeur-adjoint, le chef du département et le surveillant de matières ou classes spéciales, à moins d'indication contraire. De même, le "directeur" comprend le directeur-adjoint et le chef du département.

Dans tous les tableaux du présent rapport, sauf les Tableaux 10, 15 - 16, on ne distingue pas entre les instituteurs des écoles séparées catholiques et ceux des écoles publiques. Les religieux sont de même inclus dans tous les tableaux, bien qu'ils puissent aussi être indiqués séparément, comme dans les Tableaux 13 et 14.

Les instituteurs "non classés" des tableaux détaillés sont ceux qui ont fait rapport, mais ont omis le renseignement sur lequel porte le tableau.

Aux fins du présent rapport, les écoles publiques comprennent toutes celles qui relèvent des commissions scolaires locales ou comités de l'Instruction publique et qui sont financées par les taxes locales, y compris les écoles séparées des catholiques et des protestants, là où il y en a, et les écoles confessionnelles de Terre-Neuve. Ne sont pas compris les instituteurs des écoles privées ni des écoles spéciales qui relèvent immédiatement des gouvernements provinciaux.

### Importance de la Commission scolaire

De 1953-54 à 1967-68 un grand nombre des caractéristiques de l'effectif enseignant décrites dans le présent rapport ont été réparties par catégorie suivant l'importance du centre urbain ou la grandeur de l'école

classification entitled "Type of Community" is replaced in the current edition by a classification based on the size of employing school board, using the following categories:

1. School boards employing 2,000 or more teachers.
2. School boards employing between 1,000 and 1,999 teachers.
3. School boards employing between 500 and 999 teachers.
4. School boards employing between 100 and 499 teachers.
5. School boards employing less than 100 teachers.

The ever-increasing number of geographically large school boards which provide equal benefits to teachers in urban centres and in the surrounding rural areas is in part responsible for the change. Thus, the old classification, with categories which separated teachers employed by the same school board, is eliminated. The new classification ensures that all teachers with any given board are counted in the same category but at the same time it gives some measure of the differences related to population variation as reflected in the size of the administrative unit.

The above change makes it impossible to continue the following historical tables which appeared in previous editions of this publication:

1. Median Experience of Teachers by Type of Community.
2. Median Tenure of Teachers by Type of Community.
3. Median Salaries of Teachers by Type of Community.

Historical tables which appear in this report for the first time are:

1. Median Experience of Teachers by Province and Sex — Table 5.
2. Median Tenure of Teachers by Province and Sex — Table 6.
3. Percentage of Teachers with Degrees by Province and Teaching Level — Table 3.

### Teaching Level

Because of the requirement by many users of educational statistics to have available a classification of teachers as either "elementary" or "secondary", an attempt is made in this publication to effect such a distinction. It should be remembered, however, that many teachers have either teaching or supervisory assignments which cover both levels of education and that there is in fact no standard definition of "elementary" and "secondary" appropriate for all provinces.

dans les régions rurales. Cette classification selon le "Genre de localité" est remplacée dans le présent numéro par une classification fondée sur l'importance de la commission scolaire qui emploie les enseignants, et on distingue les catégories suivantes:

1. Commissions scolaires employant 2,000 instituteurs ou plus.
2. Commissions scolaires employant de 1,000 à 1,999 instituteurs.
3. Commissions scolaires employant de 500 à 999 instituteurs.
4. Commissions scolaires employant de 100 à 499 instituteurs.
5. Commissions scolaires employant moins de 100 instituteurs.

Le nombre sans cesse croissant de commissions scolaires géographiquement très étendues qui assurent les mêmes bénéfices aux instituteurs des centres urbains qu'à ceux des régions rurales environnantes explique en partie ce changement. Ainsi, l'ancienne classification, par catégories, établissant une distinction entre les instituteurs employés par une même commission scolaire a été supprimée. La nouvelle classification fait que tous les instituteurs appartenant à une même commission scolaire sont inclus dans la même catégorie; mais, d'autre part, elle tient compte dans une certaine mesure des différences provenant de la variation de la population indiquée par l'effectif de l'unité administrative.

Le changement précité ne permet pas de continuer les tableaux historiques suivants publiés dans les numéros antérieurs de la présente publication:

1. Expérience médiane des instituteurs selon le genre de localité.
2. Stabilité médiane des instituteurs selon le genre de localité.
3. Traitement médian des instituteurs selon le genre de localité.

Voici les nouveaux tableaux historiques dans le présent rapport:

1. Expérience médiane des instituteurs par province et sexe — Tableau 5.
2. Stabilité médiane des instituteurs par province et sexe — Tableau 6.
3. Proportion d'instituteurs possédant des grades universitaires par province et niveau d'enseignement — Tableau 3.

### Niveau d'enseignement

Comme nombre d'utilisateurs ont besoin de statistiques sur l'éducation pour classer les instituteurs suivant le niveau "élémentaire" ou "secondaire", le présent rapport s'efforce d'établir la distinction entre ces deux niveaux. Il importe de retenir, toutefois, que beaucoup d'instituteurs occupent des postes soit d'enseignement ou de surveillance chevauchant les deux niveaux d'éducation et qu'on ne peut pas faire, en réalité, une distinction précise entre l'"élémentaire" et le "secondaire" valable pour toutes les provinces.

In classifications of teachers by teaching level, teachers are grouped according to the grades they teach (or supervise) and the type of school to which they are assigned. For example, a teacher of Grades 7 and 8 will be classified as "secondary" if teaching in a junior-high school, but will be classified as "elementary" if teaching in a school with Grades 1 - 8.

For purposes of record and to facilitate interpretation of the statistical tables, following are the definitions used to arrive at the teaching level distinction:

1. A teacher who teaches any grade or combination of Grades 1 - 6 but no grade above 6 is classified as "elementary".
2. A teacher who teaches any grade or combination of Grades 9 - 13 but no grade below 9 is classified as "secondary".
3. A teacher whose assignment does not fit into either of the two previous categories is classified as "secondary" if he teaches in a junior-high school or junior-senior high school, or if he teaches in more than one school; otherwise he is counted as "elementary".

The only exception to these definitions is for the province of British Columbia where, because of the district (1-7, 8-13) organization of schools, teachers of Grades 1 - 7 are classified as elementary and 8 - 13 are classified as secondary.

In application of the above definitions, those school personnel who do not teach are classified according to the grades they supervise.

It is to be observed that the definitions used for the current report are different from those used for previous years when teachers who taught both elementary and secondary grades were classified according to size and location of school (see previous publications for exact definitions). It can also be observed from the following table that the change in definition has resulted, for most provinces, in an increase in the proportion of teachers classified as elementary, the effect being most noticeable for the province of Alberta.

La classification des instituteurs par niveau d'enseignement groupe ceux-ci suivant le grade (ou le niveau de la surveillance) et le genre d'école où ils enseignent. Par exemple, un instituteur de 7<sup>e</sup> ou 8<sup>e</sup> année sera classé au niveau "secondaire" s'il enseigne dans une école intermédiaire, mais au niveau "élémentaire" s'il enseigne dans une école de 1<sup>re</sup> à 8<sup>e</sup> année.

Aux fins administratives et pour faciliter l'interprétation des tableaux statistiques, les définitions suivantes servent à distinguer le niveau d'enseignement:

1. Un instituteur qui enseigne dans une ou plusieurs classes de la 1<sup>re</sup> à la 6<sup>e</sup> année mais pas au-delà de la 6<sup>e</sup> année est classé au niveau "élémentaire".
2. Un instituteur qui enseigne dans une ou plusieurs classes de la 9<sup>e</sup> à la 13<sup>e</sup> année mais pas au-dessous de la 9<sup>e</sup> année est classé au niveau "secondaire".
3. Un instituteur dont le poste ne correspond ni à l'une ni à l'autre de ces deux catégories est classé au niveau "secondaire" s'il enseigne dans une école intermédiaire (élémentaire) ou dans une école intermédiaire (secondaire) ou s'il enseigne dans plus d'une école; autrement, il est classé au niveau "élémentaire".

La seule exception à cette règle vise la province de la Colombie-Britannique où, étant donné l'organisation des écoles de district (1-7, 8-12), les instituteurs de la 1<sup>re</sup> à la 7<sup>e</sup> année sont classés au niveau élémentaire et ceux de la 8<sup>e</sup> à la 12<sup>e</sup> année sont classés au secondaire.

En appliquant ces définitions, le personnel scolaire qui n'enseigne pas est classé suivant les grades qu'il surveille.

Il convient d'observer que les définitions retenues dans le présent rapport sont différentes de celles employées les années précédentes, alors que les instituteurs qui enseignaient tant au niveau élémentaire que secondaire étaient classés suivant l'importance de l'école et la localité où elle se trouvait (voir les définitions exactes dans les publications antérieures). On observera aussi, d'après le tableau suivant, que le fait de modifier la définition a provoqué, dans la plupart des provinces, l'accroissement de la proportion des instituteurs classés au niveau élémentaire, ceci étant particulièrement notable en Alberta.

**Elementary Teachers as a Percentage of All Teachers, 1966 - 67, 1967 - 68 and 1968 - 69**  
**Proportion d'instituteurs du niveau élémentaire par rapport au nombre total d'instituteurs,**  
**1966 - 67, 1967 - 68 et 1968 - 69**

| Province   | 1966 - 67 | 1967 - 68 | 1968 - 69<br>year under review<br>—<br>année en revue |
|--|-----------|-----------|---|
| Newfoundland — Terre-Neuve .....                   | 77.1      | 76.4      | 75.8  |
| Prince Edward Island — Île-du-Prince-Édouard ..... | 72.3      | 70.6      | 72.4  |
| Nova Scotia — Nouvelle-Écosse .....                | 68.2      | 66.7      | 69.8  |
| New Brunswick — Nouveau-Brunswick .....            | 67.2      | 64.4      | 69.3  |
| Manitoba .....                                     | 64.6      | 63.6      | 65.2  |
| Saskatchewan .....                                 | 65.8      | 64.0      | 65.1  |
| Alberta .....                                      | 57.8      | 56.3      | 65.1  |
| British Columbia — Colombie-Britannique .....      | 57.5      | 57.6      | 58.8  |
| Eight provinces — Huit provinces .....             | 63.4      | 62.1      | 65.4  |

The change in definition should be kept in mind when comparing data for the current year with data for previous years.

### Certificates

Over the past few years the DBS classification of certificates for this report has been expanded from four to nine categories. Table 2 illustrates this progressive development.

The classification in this report using "Levels" attempts to equate the various certificates of the nine provinces on the basis of the minimum number of years of academic and professional training required for the certificates related to the base of junior matriculation level.<sup>1</sup>

| Level   | Years of required training<br>beyond Junior Matriculation Level |
|---------|---|
| 7 ..... | 7   |
| 6 ..... | 6   |
| 5 ..... | 5   |
| 4 ..... | 4   |
| 3 ..... | 3   |
| 2 ..... | 2   |
| 1 ..... | 1   |

of which at  
least one year  
is professional  
training

0 ..... Commonly Junior Matriculation plus less than one year (usually 6 weeks but sometimes 12, 18 or 24 weeks) of professional training; or no professional training, regardless of academic standing.

No attempt is made to distinguish between "Less than Level 1" and "Level 0" as was done previous to 1965 - 66. It has been found that the lines of distinction between the various permits, letters of authority, letters of permission, etc., have become increasingly vague to the point where interprovincial comparisons between the two levels would be both meaningless and misleading.

Tables 20 to 23 represent a classification of teachers according to certificates — ordinary (basic) or special. Teaching certificates are normally issued by the provincial departments of education according to the professional and academic training of the teachers. Certain provinces, however, may not give as much credit for advanced academic training as others, so that some teachers with Level 4 certificates in a province where this is the upper limit of certificates may have the qualifications for a Level 5, 6 or 7 certificate in others.

Teachers holding a basic certificate from another province, but teaching on a permit (Level 0), are classified according to their original certificates.

Ne pas oublier qu'il y a eu un changement de définition lors de la comparaison des données de l'année courante avec celles des années antérieures.

### Brevets

Au cours des dernières années, le classement des brevets pour ce rapport a été porté de quatre à neuf catégories, (Tableau 2).

Le classement par "classes" tente de mettre au même niveau les différents brevets des neuf provinces en fonction du nombre minimum d'années de formation scolaire et pédagogique requises pour les brevets venant après l'immatriculation junior<sup>1</sup>.

| Classe  | Années de formation requises<br>après l'immatriculation junior |
|---------|--|
| 7 ..... | 7  |
| 6 ..... | 6  |
| 5 ..... | 5  |
| 4 ..... | 4  |
| 3 ..... | 3  |
| 2 ..... | 2  |
| 1 ..... | 1  |

dont au moins  
une année de formation  
pédagogique

0 ..... Habituellement l'immatriculation junior et moins d'une année (ordinairement 6 semaines, mais parfois 12, 18 ou 24 semaines) de formation pédagogique ou sans formation pédagogique sans regarder le rang académique.

On ne cherche pas à faire la distinction entre "Classe - 1" et "Classe 0" comme cela se faisait avant 1965 - 66. On a constaté que la distinction entre les divers permis, lettres d'autorisation, lettres de permission, etc. devenait de plus en plus vague au point que les comparaisons interprovinciales entre les deux classes seraient dépourvues de sens et trompeuses.

Les Tableaux 20 à 23 donnent le classement des instituteurs selon le brevet — ordinaire (de base) ou spécial. Les brevets d'enseignement sont normalement délivrés par les ministères provinciaux de l'Instruction publique selon la formation scolaire et pédagogique. Certaines provinces, toutefois, peuvent accorder moins d'importance que d'autres à la scolarité, de sorte que des instituteurs détenant un brevet de Classe 4 dans une province où cet échelon est le plus élevé pourraient appartenir à la Classe 5, 6 ou 7 dans une autre province.

Les instituteurs qui détiennent un brevet de base d'une autre province mais enseignent en vertu d'un permis (Classe 0) sont classés selon leur brevet.

<sup>1</sup> The requirement for entrance to a four-year general arts course or equivalent.

<sup>1</sup> Minimum requis pour l'admission au cours général des arts de quatre ans, ou l'équivalent.

With all due regard to the tables which classify teachers by certificate level as described above, it should be understood that these classifications do not provide a good basis on which to equate levels of education of the teaching force. Comparisons of education levels inferred from certificate levels would be valid if each province issued a certificate for each year of education beyond high school but the fact is that several provinces do not have such certificate schemes.

For the school year covered by this report, only Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick have certificate schemes graduated for successive years of education. At present, British Columbia issues only three certificates: Teaching Licence, Standard Certificate and Professional Certificate corresponding to DBS Levels 2, 3 and 4 respectively, but old certificates have not been converted. As a result most of the teachers reported certificates obtained under the old scheme which provided a certificate for each successive year of education. In Alberta, only three certificates (Standard E, Standard S and Professional) are issued, the first two being granted after two years of the university education program (DBS Level 3) and the third after the third year (DBS Level 4). In Manitoba, two basic certificates only are issued (the First Class at the end of a one-year program after Grade XII and the Professional at the end of a one-year program after a bachelor's degree). In Saskatchewan, three certificates are issued corresponding to the DBS Levels 2, 3 and 5.

In those provinces which do not have a graduated certificate scale, a separate mechanism has been set up to evaluate a teacher's education record and to place each teacher on a scale for grant and/or salary purposes. Every teacher, then, is assigned a numerical value which gives the number of years of education recognized for salary or grant purposes. In Alberta, a teacher may also receive credit for fractions of years completed.

In Table 32, an attempt has been made to classify all teachers and principals by recognized years of teacher education beyond the junior matriculation level. This, in itself, has produced one problem in that the scales for the three prairie provinces use senior matriculation (Grade XII) as the base. It is because of this that there are no entries in the "less than 1 year" category for these provinces.

For the four Atlantic provinces and British Columbia, "years of education" was taken directly from the DBS "certificate level".

### University Degrees

Teachers and principals are classified according to the highest degree held without distinction between academic and professional degrees.

Compte tenu des tableaux qui classent les instituteurs suivant la classe de brevet, comme on l'explique plus haut, il faut comprendre que ces classements ne constituent pas une bonne base de comparaison des niveaux d'instruction du personnel enseignant. Les comparaisons entre les niveaux d'instruction faites à partir des classes de brevets seraient valables si chaque province délivrait un brevet pour chaque année d'instruction au-dessus du niveau secondaire, mais plusieurs provinces n'ont pas de tels régimes de brevets.

Pour l'année scolaire étudiée ici, seules les provinces de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick ont des régimes de brevets suivant les années successives d'enseignement. Ne sont délivrés à l'heure actuelle en Colombie-Britannique que trois brevets: la licence d'enseignement, le brevet général et le brevet professionnel qui correspondent aux Niveaux 2, 3 et 4 respectivement du B.F.S. Mais les anciens brevets n'ont pas été convertis et, en conséquence, la plupart des instituteurs ont déclaré des brevets obtenus sous l'ancien régime, soit un brevet pour chaque année d'études successive. En Alberta, ne sont délivrés que trois brevets (Classe E, Classe S et brevet professionnel), les deux premiers après deux années d'études universitaires (Niveau 3 du B.F.S.) et le troisième après trois années d'études (Niveau 4 du B.F.S.). Au Manitoba, deux brevets de base seulement sont délivrés (brevet de 1<sup>re</sup> classe au terme d'une année d'études au-delà de la 12<sup>e</sup> année, et brevet professionnel au terme d'une année d'études au-delà du baccalauréat. En Saskatchewan, il existe trois brevets, qui correspondent aux Niveaux 2, 3 et 5 du B.F.S.

Dans les provinces qui n'ont pas d'échelle graduée de brevets, on a instauré un mécanisme distinct pour évaluer le dossier de formation professionnelle d'un instituteur et pour classer chaque instituteur aux fins de subventions et (ou) de traitement. Il est alors assigné à chaque instituteur une valeur numérique qui donne le nombre d'années de scolarité reconnues aux fins de traitement ou de subvention. En Alberta, on tient également compte à instituteur de ses fractions d'année de scolarité.

Au Tableau 32, on a tenté de classer tous les instituteurs et directeurs suivant les années reconnues de formation pédagogique au-dessus du niveau de la première immatriculation. Cela a créé des difficultés du fait que les échelles de traitement pour les trois provinces des Prairies sont fondées sur l'immatriculation supérieure (12<sup>e</sup> année). C'est à cause de cela qu'il n'y a pas d'inscriptions dans la catégorie de "moins d'un an" pour ces provinces.

Pour les quatre provinces atlantiques et la Colombie-Britannique, les mots "années de scolarité" ont été empruntés directement du "niveau du brevet" du B.F.S.

### Degrés universitaires

Les instituteurs et directeurs sont classés selon leur plus haut grades, sans faire de distinction entre les grandes scolaires et professionnels.

## Experience

Tables 25 and 26 give data on total teaching experience and Tables 27 and 28 on tenure. For the purposes of this report, tenure is defined as "experience with the present school board, which may or may not be continuous".

## Average Salaries

Salary medians for the total teaching force of a province do not offer a good basis for interprovincial comparison since these groups are heterogeneous in structure. With years of training, experience, university degrees and other characteristics such as teaching level, teaching position, and size of employing school board varying widely, it is unwarranted to compare medians without eliminating as many of these factors as possible. While it might be desirable to classify the teaching force of each province by each of these factors, a lack of uniformity in requirements for certificates and in recognition of years of teaching experience for salary purposes, plus limitations imposed by the size of the teaching force, make such an analysis impossible.

## Calculation of Percentiles from Salary Distributions

In this report, all percentiles were calculated from distributions having \$100 intervals. Teachers drawing no salary or "unclassified" were omitted in calculating the percentiles. Wherever a column contained fewer than 30 teachers, percentiles were not calculated. The median is the middle point in a distribution. Half the teachers received salaries lower, half received salaries higher, than this figure. Commonly the arithmetic mean of the salaries of teachers is higher than the median. This difference may in some cases be as much as two or three hundred dollars, because the arithmetic mean is strongly affected by a relatively small number of teachers who are at a much higher level on the salary scale.

## Migrated Teachers

In several editions of this publication, previous to 1965 - 66, a table was provided to show the number of "migrated teachers" in each province. Migrated teachers were defined as those who possessed a certificate from another province or country and also had some teaching experience in that province or country.

Beginning with the year 1965 - 66, the table on migrated teachers was discontinued and is replaced by a tabulation showing all teachers in a province classified according to the province or country of their initial teaching certificate.

When comparing the present table with the ones previous to 1965 - 66 on migrated teachers, the change in definition should be remembered.

## Expérience

Les Tableaux 25 et 26 traitent de l'expérience dans l'enseignement et les Tableaux 27 et 28, des états de service. Aux fins du présent rapport, les états de service comprennent les années d'expérience avec la commission scolaire actuelle, que ce soit un service continu ou non.

## Moyennes des traitements

Les traitements médians du total du personnel enseignant d'une province ne permettent pas la comparaison interprovinciale, car ces groupes ont une structure. Comme les années de formation et d'expérience, les grades universitaires et d'autres caractéristiques (comme le niveau d'enseignement, le poste, et l'importance de la commission scolaire qui l'emploie) varient considérablement; il n'est pas juste de comparer les médianes sans éliminer autant de ces facteurs que possible. Alors qu'il y aurait peut-être lieu de classer l'effectif enseignant de chaque province en rapport avec chacun de ces facteurs, le manque d'uniformité, quant aux qualités requises pour obtenir le brevet et aux années d'enseignement admises comme expérience pour établir les traitements, outre les restrictions qu'impose l'importance du corps enseignant, rend l'analyse impossible.

## Calcul des percentiles des répartitions de traitements

Dans le présent rapport, tous les percentiles sont calculés à partir des répartitions ayant des intervalles de \$100. Les instituteurs sans traitements ou "non classés" sont omis du calcul des percentiles. Chaque fois qu'une colonne comprend moins de 30 instituteurs, les percentiles ne sont pas calculés. La médiane est le point central d'une répartition. La moitié des instituteurs touchait un traitement inférieur à ce chiffre et la moitié, un traitement supérieur. Ordinairement, la moyenne arithmétique des traitements des instituteurs est plus élevée que la médiane. La différence peut atteindre en certains cas jusqu'à deux ou trois cent dollars, parce que la moyenne arithmétique se ressent du nombre relativement peu élevé d'instituteurs à l'échelon le plus élevé de l'échelle des traitements.

## Instituteurs migrants

Plusieurs éditions de la présente publication avant 1965 - 66 présentaient sous forme de tableau le nombre d'"instituteurs migrants" dans chaque province. Ceux-ci étaient décrits comme titulaires d'un brevet d'une autre province ou d'un autre pays, qui avaient quelque expérience de l'enseignement dans la province ou le pays en cause.

A partir de 1965 - 66, le tableau sur les instituteurs migrants a été supprimé et remplacé par un tableau donnant tous les instituteurs d'une province classés selon la province ou le pays où ils ont obtenu leur premier brevet d'enseignement.

En comparant le présent tableau avec ceux des années antérieures à 1965 - 66 sur les instituteurs migrants, on tiendra compte de la nouvelle définition.

Table 30 shows the percentage of teachers in each province who received their initial teaching certificate from outside the province. It should be clearly understood that not all of those "migrated teachers" came to the province where now teaching, in the year under review.

### Age

Data on teachers classified by age appears for the first time in this edition of the publication. Tables 32 and 33 give data by age-group, years of experience, years of education and sex for eight provinces. The age of a teacher is determined from year of birth and therefore, must be considered as age as of December 31, 1968.

## REVIEW OF STATISTICS

### Number of Teachers

Between 1948 - 49 and 1968 - 69 the number of full-time teachers and principals in public schools of Canada increased by nearly 189 per cent, from 81,889 to 236,467. By far the greatest percentage increase was in British Columbia (261 per cent), followed by Ontario (251 per cent), Alberta (229 per cent), Quebec (174 per cent), Newfoundland (160 per cent), New Brunswick (138 per cent), Manitoba (131 per cent), Nova Scotia (118 per cent), Prince Edward Island (109 per cent), and Saskatchewan (60 per cent).

The 236,467 teachers and principals employed full-time in 1968 - 69 were distributed amongst the provinces as follows: Ontario 35.9 per cent, Quebec 28.3 per cent, British Columbia 8.2 per cent, Alberta 7.9 per cent, Saskatchewan 4.9 per cent, Manitoba 4.6 per cent, Nova Scotia 3.8 per cent, New Brunswick 3.2 per cent, Newfoundland 2.6 per cent, and Prince Edward Island 0.6 per cent.

### Sex and Marital Status

Of all teachers and principals in the eight provinces exclusive of Quebec and Ontario 37.2 per cent were men, a slight increase from the 36.3 per cent recorded in 1967 - 68. As in previous years, British Columbia had the highest (44.5 per cent) and Prince Edward Island the lowest percentage of men teachers (23.4 per cent).

In 1968 - 69, 59.5 per cent of all women teachers were married women. Newfoundland had the lowest percentage of married women teachers (44.3 per cent) and Prince Edward Island had the highest (65.1 per cent).

Almost 3.1 per cent, of all teachers outside of Quebec and Ontario were members of R.C. religious orders or secular priests. British Columbia is the only province, with no religious teachers in the public school system.

Le Tableau 30 montre la proportion des instituteurs de chaque province ayant reçus leur brevet d'enseignement hors de la province. Il importe d'établir clairement que les "instituteurs migrants" qui sont venus dans la province où ils enseignent maintenant ne sont pas tous venus pendant l'année en revue.

### Âge

Les données sur les instituteurs classés par âge paraissent pour la première fois dans ce numéro du rapport. Les Tableaux 32 et 33 donnent les statistiques par groupe d'âge, années d'expérience, années d'étude et sexe pour huit provinces. L'âge de l'instituteur est déterminé d'après l'année de naissance et, par conséquent, doit être considéré comme son âge au 31 décembre 1968.

## EXAMEN DES DONNÉES STATISTIQUES

### Nombre d'instituteurs

De 1948 - 49 à 1968 - 69, le nombre d'instituteur à plein temps et de directeurs dans les écoles publiques du Canada a augmenté de presque 189 p. 100, soit de 81,889 à 236,467. C'est la Colombie-Britannique qui a accusé la plus forte augmentation en pourcent (261 p. 100) suivie de l'Ontario (251), de l'Alberta (229), du Québec (174), de Terre-Neuve (160) du Nouveau-Brunswick (138), du Manitoba (131) de la Nouvelle-Écosse (118), de l'Île-du-Prince-Édouard (109) et de la Saskatchewan (60).

Voici la répartition provinciale des 236,467 instituteurs et directeurs d'écoles employés à plein temps en 1968 - 69. Ontario 35.9 p. 100; Québec, 28.3; Colombie-Britannique, 8.2; Alberta, 7.9; Saskatchewan, 4.9; Manitoba, 4.6; Nouvelle-Écosse, 3.8; Nouveau-Brunswick, 3.2; Terre-Neuve, 2.6; et l'Île-du-Prince-Édouard, 0.6.

### Sexe et état matrimonial

De tous les instituteurs et directeurs des huit provinces, (à l'exclusion du Québec et de l'Ontario), 37.2 p. 100 étaient des hommes, soit une légère augmentation par rapport aux 36.3 p. 100 enregistrés en 1967 - 68. Comme par le passé, la Colombie-Britannique a eu le plus fort pourcentage (44.5 p. 100) et l'Île-du-Prince-Édouard le plus faible (23.4 p. 100) des instituteurs de sexe masculin.

En 1968 - 69, 59.5 p. 100 de toutes les institutrices étaient mariées. Terre-Neuve accusait la plus faible proportion d'institutrices mariées (44.3 p. 100) et l'Île-du-Prince-Édouard, la proportion la plus élevée (65.1 p. 100).

Près de 3.1 p. 100 de tous les instituteurs hors du Québec et de l'Ontario étaient membres de communautés religieuses catholiques ou prêtres séculiers catholiques. La Colombie-Britannique est la seule province qui n'ait pas d'instituteurs religieux dans les écoles publiques.

### Teaching Level

Of all teachers outside of Quebec, and Ontario 65.4 per cent were instructing elementary grades (including kindergarten) and 34.6 per cent secondary grades.

### Salaries

The median salary for all teachers and principals in public elementary and secondary schools of the eight provinces exclusive of Quebec and Ontario was \$6,495. This represents an increase of 5.2 per cent from the 1967 - 68 median salary for the same eight provinces.

It should be recognized that variations in median salaries do not necessarily indicate variations in the salary schedules on which teachers are being paid. Since salary scales are based on both years of education and years of teaching service, improvements in the teaching force on either of these two factors could conceivably cause an increase in the median salary while the salary scale remained constant. For this reason, caution should be exercised in the use of the median as a value for interprovincial and historical comparisons unless the effects of other contributing factors can be isolated and measured.

In 1968 - 69, the teachers and principals instructing or supervising elementary grades in "public" schools received a median salary of \$5,801 and those in R.C. separate schools, \$6,275. R.C. religious elementary teachers in public and separate schools had a median salary of \$6,212.

The median salary for secondary teachers and principals in "public" schools was \$8,015, in R.C. separate schools, \$8,153, whereas the median for all R.C. religious secondary teachers was \$8,484.

The average salary (arithmetic mean) of principals and vice-principals of elementary schools was \$8,929, and that of the secondary school principals and vice-principals, \$10,726. The corresponding averages for teachers were \$5,824 and \$7,775.

### Certificates

Of the 84,677 teachers and principals who reported levels of certificate for the eight provinces other than Quebec and Ontario, 248 teachers did not possess a basic or ordinary certificate, or permit.

The proportion of teachers with Level 0 certificates (less than one year of academic or professional training) rose sharply during the war years, from slightly over 2 per cent in 1940 to almost 14 per cent in 1945 and then decreased to 9.6 per cent in 1950, and 5.4 per cent, in the year under review.

### Niveau d'enseignement

De tous les instituteurs hors du Québec et de l'Ontario, 65.4 p. 100 enseignaient les classes élémentaires (y compris le jardin d'enfance) et 34.6 p. 100, les classes secondaires.

### Traitements

Le traitement médian de tous les instituteurs et directeurs des écoles publiques élémentaires et secondaires des huit provinces autres que le Québec et l'Ontario était de \$6,495. Ceci représente une augmentation de 5.2 p. 100 du traitement médian de l'année 1967 - 68 pour les huit mêmes provinces.

Il y a lieu de signaler que les variations du traitement médian ne correspondent pas nécessairement à des variations des échelles de traitement des instituteurs. Comme les échelles de traitements sont fondées sur la scolarité et l'expérience de l'enseignement, l'amélioration du personnel enseignant à l'un ou l'autre de ces points de vue peut fort bien entraîner un relèvement du traitement médian, l'échelle de traitement demeurant constante. Aussi faut-il être prudent lorsqu'on utilise le traitement médian comme valeur aux fins de comparaison d'une province à l'autre ou d'une période à l'autre, à moins de pouvoir isoler et mesurer les autres facteurs qui entrent en ligne de compte.

En 1968 - 69, les instituteurs et directeurs d'écoles qui enseignaient ou surveillaient dans les classes élémentaires des écoles "publiques" recevaient un traitement médian de \$5,801 et ceux des écoles catholiques séparées, de \$6,275. Les religieux et religieuses dans les écoles publiques et séparées catholiques (niveau élémentaire) avaient un traitement médian de \$6,212.

Le traitement médian des instituteurs et directeurs secondaires dans les écoles "publiques" était de \$8,015, celui des écoles séparées catholiques, de \$8,153; tandis que celui de tous les enseignants religieux des écoles secondaires était de \$8,484.

Le traitement moyen (moyenne arithmétique) des directeurs et sous-directeurs dans les écoles élémentaires était de \$8,929 et celui des directeurs et sous-directeurs dans les écoles secondaires de \$10,726. Les moyennes correspondantes des instituteurs étaient de \$5,824 et \$7,775.

### Brevets

Sur les 84,677 instituteurs et directeurs qui déclarent leur niveau de brevet pour les huit provinces autres que le Québec et l'Ontario, 248 instituteurs ne possédaient pas de certificat ou de brevet de base ou ordinaire.

La proportion d'instituteurs détenant un brevet de Classe 0 (moins d'une année de formation scolaire et professionnelle) a monté en flèche pendant la guerre; elle est en effet passé, de 1940 à 1945, de 2 p. 100 à près de 14 p. 100. Elle est revenue ensuite à 9.6 p. 100 en 1950 et à 5.4 p. 100 durant l'année observée.

In 1948 - 49, 16.4 per cent of all teachers and principals had at least four years of training (academic and professional) while 20.6 per cent had only one year. Since then the proportion with one year of training has decreased to 7.3 per cent in 1968 - 69 while the proportion with four or more years of training has increased to 41.2 per cent. The proportion of teachers teaching with Level 2 and Level 3 certificates did not change appreciably between 1948 and 1962, varying from 51 per cent to 59 per cent. Since then it has begun to decline reaching a low of 45.8 per cent in the year under review.

The tables on teachers' certificates show that, on the average, the proportion of women with lower levels of certificate is higher than that of men, at both the elementary and secondary levels. They also show that larger centres have generally more teachers at the higher levels of certificate than do small urban and rural areas.

### University Degrees

Of the 84,677 teachers and principals in the eight provinces for which data are available (Quebec and Ontario excepted), 33,636 or 39.7 per cent held one or more university degrees. The proportion of men with degrees was 64.8 per cent and that of women 24.9 per cent.

Whereas 71.1 per cent of all secondary teachers and principals had one or more university degrees, only 23.2 per cent of the elementary teachers and principals were university graduates.

The highest percentage of university graduates was found in British Columbia (50.8 per cent) followed by Alberta (48.5 per cent), Nova Scotia (37.5 per cent), Manitoba (36.0 per cent), Saskatchewan (32.5 per cent), New Brunswick (27.2 per cent), Newfoundland (21.6 per cent), and Prince Edward Island (19.7 per cent).

The proportion of teachers holding university degrees has been increasing steadily. In 1944 - 45 it was 16.9 per cent; in 1954 - 55, 21.9 per cent; in 1959 - 60, 24.7 per cent; in 1963 - 64, 30.4 per cent; and in the year under review, 39.7 per cent.

### Teaching Experience

The median experience for all teachers and principals in the eight provinces (exclusive of Quebec and Ontario) was 7.4 years in 1968 - 69.

The median experience for elementary teachers was exactly the same as secondary teachers (7.4 years).

At both levels of teaching there was a considerable variation amongst the provinces. Median experience for elementary teachers varied from 4.6 years in New-

En 1948 - 49, 16.4 p. 100 de tous les instituteurs et directeurs avaient au moins quatre ans de formation (scolaire et professionnelle), tandis que 20.6 p. 100 n'avaient qu'un an de formation. Depuis, la proportion d'instituteurs et de directeurs n'ayant qu'un an de formation a diminué à 7.3 p. 100 en 1968 - 69, tandis que celle des instituteurs ayant quatre ans ou plus de formation a augmenté à 41.2 p. 100. La proportion d'instituteurs enseignant avec un certificat du Niveau 2 et 3 n'a pas beaucoup changé entre 1948 et 1962 variant de 51 p. 100 à 59 p. 100. Depuis ce temps, elle a commencé à diminuer et a atteint une baisse de 45.8 p. 100 pour l'année en revue.

Les tableaux relatifs aux certificats des instituteurs indiquent qu'en moyenne la proportion de femmes ayant un certificat d'un niveau inférieur est plus élevée que chez les hommes, tant au niveau élémentaire que secondaire. Ils montrent aussi que les plus grands centres ont en général plus d'instituteurs ayant un certificat d'un niveau plus élevé que les plus petits centres et les régions rurales.

### Grades universitaires

Sur les 84,677 instituteurs et directeurs dans les huit provinces pour lesquelles des données sont disponibles (sauf le Québec et l'Ontario), 33,636 ou 39.7 p. 100 détenaient un grade universitaire ou plus. La proportion des hommes ayant un grade était de 64.8 p. 100 et celle des femmes, de 24.9 p. 100.

Tandis que 71.1 p. 100 de tous les instituteurs et directeurs secondaires avaient un grade universitaire ou plus, seulement 23.2 p. 100 des instituteurs et directeurs élémentaires possédaient un grade universitaire.

La plus forte proportion de diplômés universitaires se trouvait en Colombie-Britannique (50.8 p. 100), puis en Alberta (48.5), en Nouvelle-Écosse (37.5), au Manitoba (36.0), en Saskatchewan (32.5), au Nouveau-Brunswick (27.2) à Terre-Neuve (21.6), et sur l'Île-du-Prince-Édouard (19.7).

La proportion d'instituteurs détenant un grade universitaire s'est accrue régulièrement. En 1944 - 45, elle était de 16.9 p. 100; en 1954 - 55, de 21.9 p. 100; en 1959 - 60, de 24.7 p. 100; en 1963 - 64, de 30.4 p. 100; et dans l'année observée, de 39.7 p. 100.

### Expérience dans l'enseignement

L'expérience médiane de tous les instituteurs et directeurs dans les huit provinces (à l'exception du Québec et de l'Ontario) était de 7.4 années en 1968 - 69.

Le nombre médian d'années d'expérience des instituteurs de l'élémentaire était exactement le même que celui des instituteurs du secondaire (7.4 années).

Aux deux niveaux de l'enseignement, un écart considérable existait d'une province à l'autre; l'expérience médiane des instituteurs élémentaires variait de 4.6 années

foundland to more than twice as much (10.2 years) in Nova Scotia, and the median for secondary teachers from 6.0 years in Newfoundland to 8.4 years in British Columbia.

The median years of experience for women was higher than that for men in all provinces except Manitoba, and British Columbia where median years of experience for men was higher at both elementary and secondary levels of teaching.

#### **Experience with Present School Board (Tenure)**

Generally speaking, median tenure increased a small amount each year (from 1.4 years in 1947 to 3.1 years in 1964). The trend appears to have reversed itself however, with a decrease to 3.0 years in 1965 and a similar decline to 2.8 years in the year under review.

In 1968-69 median tenure for elementary teachers was 3.0 years, and for secondary teachers it was 3.0 years.

Newfoundland has the lowest median for elementary and secondary teachers (1.8 and 1.9 respectively), whereas Nova Scotia at the elementary level (5.0) and British Columbia at the secondary level (3.6) had the highest median.

à Terre-Neuve à plus de deux fois autant (10.2 années) en Nouvelle-Écosse, et la médiane des instituteurs secondaires, de 6.0 années à Terre-Neuve à 8.4 années en Colombie-Britannique.

Le nombre médian d'années d'expérience était plus élevé chez les femmes que chez les hommes dans toutes les provinces, sauf au Manitoba et en Colombie-Britannique, où il était plus élevé chez les hommes aux niveaux élémentaire et secondaire.

#### **Expérience acquise avec la Commission scolaire actuelle (service courant)**

En général, le service courant médian a augmenté quelque peu chaque année (de 1.4 années en 1947 à 3.1 années en 1964). La tendance semble toutefois s'être renversée, le nombre d'années n'étant plus que de 3.0 années en 1965 et de 2.8 au cours de l'année observée.

En 1968-69, le service médian des instituteurs élémentaires était de 3.0 années et celui des instituteurs secondaires était de 3.0 années.

Terre-Neuve accuse la médiane la plus basse à l'égard des instituteurs de l'élémentaire et du secondaire (1.8 et 1.9 respectivement), tandis que la Nouvelle-Écosse au niveau élémentaire (5.0) et la Colombie-Britannique, au niveau secondaire (3.6) accusaient la médiane la plus élevée.

<sup>1</sup> Teachers in schools under control only. — Instituteurs dans les écoles sous contrôle seulement.<sup>2</sup> Ontario figures revised to include full-time itinerant teachers from 1960-61 on. — Les chiffres de l'Ontario ont été révisés, afin d'inclure les instituteurs itinérants à plein temps à compter de 1960-61.<sup>3</sup> Decrease reflects a change in definition of secondary grades in Quebec. — Cette baisse démontre le changement apporté à la définition des classes secondaires du Québec.<sup>4</sup> Estimate. — Estimation.<sup>5</sup> Restrictive age requirements for students entering public schools at the Grade I level resulted in a decrease in the estimated number of teachers. — Des conditions restrictives en ce que concerne l'âge des étudiants commençant dans les écoles publiques en première année ont fini par causer une baisse dans le nombre d'instituteurs estimés.

<sup>1</sup> Teaching experience as of the opening of school in September. — Expérience pédagogique au début de l'année scolaire en Septembre.<sup>2</sup> Also excludes Ontario up to 1959-60 and in 1968-69, and Saskatchewan in 1965-66. — A l'exclusion de l'Ontario jusqu'à 1959-60 et 1968-69 et la Saskatchewan en 1965-66.<sup>3</sup> In these years teachers reported experience to the end of the school year under review. As a result, one year had to be subtracted from the median experience published in these annual reports. — Durant ces années, les instituteurs déclaraient l'expérience à la fin de l'année scolaire en revue. Il fallait donc soustraire une année de l'expérience médiane publiée dans ces rapports annuels.

**TABLE 6. Median Tenure<sup>1</sup> of Teachers by Province (Quebec excepted)<sup>2</sup>, 1949-50 to 1968-69**  
**TABLEAU 6. Stabilité<sup>1</sup> médiane des instituteurs par province (sauf le Québec<sup>2</sup>), 1949-50 à 1968-69**

<sup>1</sup> Teaching experience with present school board as of the opening of school in September. — Expérience pédagogique avec la commission scolaire actuelle au début de l'année scolaire en Septembre.

<sup>2</sup> Also includes Ontario up to 1959-60 and in 1968-69, Newfoundland and Nova Scotia in 1949-50, New Brunswick in 1963-64 and Saskatchewan in 1965-66. — A l'exclusion de l'Ontario jusqu'à 1959-60 et 1968-69, de Terre-Neuve et de la Nouvelle-Écosse en 1949-50, Nouveau-Brunswick en 1963-64 et Saskatchewan en 1965-66.

<sup>3</sup> In these years, teachers reported experience to the end of the school year under review. As a result, one year had to be subtracted from the median tenure published in these annual reports. — Durant ces années, les instituteurs déclaraient l'expérience à la fin de l'année scolaire en revue. Il fallait donc soustraire une année de la stabilité médiane publiée dans ces rapports annuels.

TABLE 7. Median Salaries of Teachers by Province, (Quebec excepted), 1948-49 to 1968-69

TABLEAU 7. Traitements médians des instituteurs selon la province, (sauf le Québec), 1948-49 à 1968-69

## SECTION VII

### Yukon, N.W.T., Indian Schools, D.N.D. Overseas

### Yukon, T.N.O., Écoles Indiennes, M.D.N. Outre-mer

Tables - Tableaux

40 — 47

#### Yukon

The Territorial Government operates schools in the Yukon with a total staff of 194 teachers and principals. Most of the staff have come from the Western provinces and in 1968 - 69 approximately one-third were teaching for the first time in the Yukon.

#### Northwest Territories

In 1968 - 69 there were 510 teachers and principals in the schools of the N.W.T. With the exception of two Company schools, two R.C. separate schools and one public school, the schools were all Federal institutions under the jurisdiction of the Education Branch, Department of Indian Affairs and Northern Development.

Most of the teaching staff for these schools came from Ontario and the Prairies.

#### Indian Schools

Schools for Indian children are operated by the Education Branch, Department of Indian Affairs and Northern Development in the Yukon and all provinces except Newfoundland. In 1968 - 69 there were 1,248 teachers and principals in these schools, exclusive of those teachers who were employed by the Indian Affairs Branch to teach Indian children in the public and separate schools.

The teaching staffs of Indian schools were largely drawn from the provinces in which the schools are located.

#### Department of National Defence, Schools Overseas

The Department of National Defence operates several schools in Europe for the children of Canadian servicemen overseas. In 1968 - 69 there were 521 teachers and principals in these schools, over half of them having come from Ontario.

#### Yukon

Le gouvernement territorial administre les Écoles au Yukon dont le personnel total comprend 194 instituteurs et directeurs. La majeure partie d'entre eux avait été recrutée dans les provinces de l'Ouest et en 1968 - 69 environ un tiers enseignaient pour la première fois au Yukon.

#### Territoires du Nord-Ouest

En 1968 - 69, les écoles des Territoires du Nord-Ouest comptaient 510 instituteurs et directeurs. Sauf deux écoles de Société, deux écoles séparées catholiques et une école publique, les écoles étaient des institutions fédérales sous la juridiction de la Direction de l'Éducation du ministère des Affaires indiennes et du Nord canadien.

La plus grande partie du personnel enseignant de ces écoles a été recrutée en Ontario et dans les Prairies.

#### Écoles pour Indiens

Les écoles pour les enfants indiens relèvent de la Direction de l'Éducation, ministère des Affaires indiennes et du Nord canadien au Yukon et dans toutes les provinces sauf à Terre-Neuve. En 1968 - 69, il y avait 1,248 instituteurs et directeurs dans ces écoles, sans compter les instituteurs employés par la Division des affaires indiennes pour enseigner aux enfants indiens dans les écoles publiques et séparées.

Le personnel enseignant des écoles pour Indiens venait en grande partie des provinces où ces écoles sont situées.

#### Ministère de la Défense nationale, écoles outre-mer

Le ministère de la Défense nationale administre plusieurs écoles en Europe pour les enfants des militaires canadiens. En 1968 - 69, il y avait 521 instituteurs et principaux dans ces écoles; la moitié d'entre eux viennent de l'Ontario.

TABLE 40. Number of Teachers and Principals, by Sex, Marital Status and Teaching Level, 1968-69

TABLEAU 40. Nombre d'instituteurs et de directeurs selon le sexe, l'état matrimonial et le niveau d'enseignement, 1968-69

## PREFACE

A report on qualifications, salaries and experience of teachers in public elementary and secondary schools has been published annually since 1939, except for the years 1950 - 51, 1951 - 52 and 1955 - 56. Basic data for these three years are contained in the historical tables of this report.

As one result of the Federal-Provincial Conference on the Statistics of Education held in May 1952, a standard questionnaire for recording teacher-data was introduced in the fall of that year by all provinces except Quebec and Ontario. In 1959, the Ontario Department of Education began using a similar form and up to and including 1967-68 provided DBS with teacher-data roughly comparable to those available for the other provinces.

Because the Ontario Department of Education did not collect teacher-data for the school year under review 1969 - 70, statistics for that province are not included in this report.

Teacher-data for the province of Quebec have generally not been available from the Quebec Department of Education in a form comparable to those for other provinces. However, the Quebec Department publishes a series of statistical reports entitled *Statistiques de l'enseignement*, the latest of which include publications on teachers for 1966 - 67.

In the current edition of this report, as in previous ones, data on teachers of the Yukon, Northwest Territories, Indian Schools, and D.N.D. Schools Overseas have not been integrated with the statistics for the provincial school systems. They are given in a separate section.

This report was prepared in the Teacher Information Section, Education Division. Requests for additional data or suggestions for improvement of the report, should be directed to the Director of the Education Division or to the Chief of the Teacher Information Section.

WALTER E. DUFFETT,

*Dominion Statistician.*

## PRÉFACE

Un rapport sur la qualification, le traitement et l'expérience des instituteurs des écoles publiques élémentaires et secondaires a été publié chaque année depuis 1939, sauf pour les années scolaires 1950-51, 1951-52 et 1955-56. Les tableaux chronologiques du présent rapport comprennent les principales statistiques de ces trois années.

A la suite de la Conférence fédérale-provinciale sur la statistique de l'enseignement, en mai 1952, un nouveau questionnaire a été établi à l'automne de la même année et toutes les provinces, sauf le Québec et l'Ontario, l'utilisent. En 1959, l'Ontario a adopté un questionnaire semblable et cette province fournit au B.F.S. jusqu'en 1967-68 inclusivement des données comparables à celles des autres provinces.

Comme le ministère de l'Éducation de l'Ontario n'a pas recueilli de données sur les instituteurs pour l'année scolaire en revue 1969 - 70, les statistiques de cette province ne sont pas comprises dans le présent rapport.

Le ministère de l'Éducation de Québec ne fournit pas d'habitude des statistiques sur les instituteurs de cette province comparables à celles des autres provinces. Toutefois, ce ministère publie une série de rapports statistiques intitulée "Statistiques de l'enseignement" dont la plus récente comprend des publications sur les instituteurs pour l'année 1966-67.

Dans la présente édition du rapport, comme dans les rapports antérieurs, les données sur les instituteurs du Yukon et des Territoires du Nord-Ouest, des écoles indiennes et des écoles de la Défense nationale outre-mer n'ont pas été intégrées aux statistiques de l'enseignement provincial; elles paraissent dans une section distincte du rapport.

Le présent rapport a été rédigé par la Section de l'information sur les enseignants de la Division de l'éducation. Toute demande de renseignements supplémentaires ou suggestion visant à améliorer le rapport doit être adressé au directeur de la Division de l'éducation ou au chef de la Section de l'information sur les enseignants.

WALTER E. DUFFETT,

*Statisticien fédéral.*

## SYMBOLS

The interpretation of the symbols used in the tables throughout this publication is as follows:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or negligible.
- x percentiles or percentages not calculated  
(number of classified teachers less than 30); individual salary not shown.

## SIGNES CONVENTIONNELS

Signification des signes utilisés dans les tableaux de la présente publication:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou négligeable.
- x percentiles ou pourcentages non calculés  
(nombre d'instituteurs classés moindre que 30); traitement particulier non indiqué.

## INTRODUCTION

### Count of Teachers

The data of this report cover only school principals and full-time teachers instructing elementary and secondary grades in public schools. Differences between the counts reported by certain provinces and the numbers in this report result, for the most part, from this definition. Whereas some of the provincial departments of education account for every teacher, full-time and part-time employed for any period of time during the school year and may count two or more teachers for one position, in this report attempts are made to avoid duplications of teaching positions, *i.e.*, one teacher is counted for each full-time teaching position. Teachers, supervisors of special subjects and classes, principals, supervising principals, assistant principals and substitute teachers are included, provided they are full-time employees on an annual salary. Excluded are superintendents, inspectors and supervisors employed by the provinces or by the school boards; psychologists, attendance officers and others involved in pupil-personnel services or non-teaching fields; and part-time teachers paid on a daily basis.

In the context of this report, the word "teacher" is meant to include principal, vice-principal, department head and subject supervisor unless otherwise stated. Similarly, the term "principal" is used to include vice-principal and department head.

In all tables of this report except Tables 10, 15 - 16, teachers in Roman Catholic separate schools are not shown separately from those in the public schools. R.C. religious teachers are similarly included in all tables, even though they may also be shown separately as in Table 13 and 14.

The teachers shown as "unclassified" in some of the detail tables are those who completed a return but failed to report the item under consideration in the particular table.

For the purpose of this report, public schools are those operated by local school boards or boards of education, and supported by local taxation including the Roman Catholic and Protestant separate schools, where such exist, and the denominational schools of Newfoundland. Teachers in private schools and in special schools operated directly by provincial governments are not included.

### Size of School Board

From 1953-54 to 1967-68 many characteristics of the teaching force outlined in this report were categorized according to size of urban centre or according to size of school in rural areas. This

### Nombre d'instituteurs

Les données du rapport ne visent que les directeurs et les instituteurs à plein temps qui enseignent dans les classes élémentaires et secondaires publiques. Les différences entre les totaux déclarés par certaines provinces et ceux du présent rapport sont dues, en grande partie, à cette définition. Certaines provinces comptent chaque instituteur, à plein temps ou à temps partiel, même s'il n'a enseigné qu'une partie de l'année, et peuvent aussi compter deux instituteurs ou plus dans le même poste, mais on a tenté ici d'éviter le double emploi des postes d'enseignement, *i.e.*, un instituteur est compté dans chaque poste à plein temps. Les instituteurs, surveillants de matières et classes spéciales, directeurs, directeurs-surveillants, directeurs adjoints et instituteurs suppléants sont inclus, pourvu qu'ils soient employés à plein temps et touchent un traitement annuel. Sont inclus les surintendants, les inspecteurs et les surveillants à l'emploi des provinces ou des commissions scolaires; les psychologues, les contrôleurs des absences et les autres personnes en cause dans les services visant les élèves et le personnel ou qui se consacrent à d'autres tâches que l'enseignement, ainsi que les instituteurs à temps partiel qui sont rémunérés à la journée.

Dans le présent rapport, le mot "instituteurs" comprend le directeur, le directeur-adjoint, le chef du département et le surveillant de matières ou classes spéciales, à moins d'indication contraire. De même, le "directeur" comprend le directeur-adjoint et le chef du département.

Dans tous les tableaux du présent rapport, sauf les Tableaux 10, 15 - 16, on ne distingue pas entre les instituteurs des écoles séparées catholiques et ceux des écoles publiques. Les religieux sont de même inclus dans tous les tableaux, bien qu'ils puissent aussi être indiqués séparément, comme dans les Tableaux 13 et 14.

Les instituteurs "non classés" des tableaux détaillés sont ceux qui ont fait rapport, mais ont omis le renseignement sur lequel porte le tableau.

Aux fins du présent rapport, les écoles publiques comprennent toutes celles qui relèvent des commissions scolaires locales ou comités de l'Instruction publique et qui sont financées par les taxes locales, y compris les écoles séparées des catholiques et des protestants, là où il y en a, et les écoles confessionnelles de Terre-Neuve. Ne sont pas compris les instituteurs des écoles privées ni des écoles spéciales qui relèvent immédiatement des gouvernements provinciaux.

### Importance de la Commission scolaire

De 1953-54 à 1967-68 un grand nombre des caractéristiques de l'effectif enseignant décrites dans le présent rapport ont été réparties par catégorie suivant l'importance du centre urbain ou la grandeur de l'école

classification entitled "Type of Community" was replaced in the 1968 - 69 edition by a classification based on the size of employing school board, using the following categories:

1. School boards employing 2,000 or more teachers.
2. School boards employing between 1,000 and 1,999 teachers.
3. School boards employing between 500 and 999 teachers.
4. School boards employing between 100 and 499 teachers.
5. School boards employing less than 100 teachers.

The ever-increasing number of geographically large school boards which provide equal benefits to teachers in urban centres and in the surrounding rural areas is in part responsible for the change. Thus, the old classification, with categories which separated teachers employed by the same school board, is eliminated. The new classification ensures that all teachers with any given board are counted in the same category but at the same time it gives some measure of the differences related to population variation as reflected in the size of the administrative unit.

The above change makes it impossible to continue the following historical tables which appeared in editions of this publication prior to 1968 - 69:

1. Median Experience of Teachers by Type of Community.
2. Median Tenure of Teachers by Type of Community.
3. Median Salaries of Teachers by Type of Community.

Historical tables which appeared in this report for the first time in 1968 - 69 are:

1. Median Experience of Teachers by Province and Sex — Table 5.
2. Median Tenure of Teachers by Province and Sex — Table 6.
3. Percentage of Teachers with Degrees by Province and Teaching Level — Table 3.

### Teaching Level

Because of the requirement by many users of educational statistics to have available a classification of teachers as either "elementary" or "secondary", an attempt is made in this publication to effect such a distinction. It should be remembered, however, that many teachers have either teaching or supervisory assignments which cover both levels of education and that there is in fact no standard definition of "elementary" and "secondary" appropriate for all provinces.

dans les régions rurales. Cette classification selon le "Genre de localité" a été remplacée dans la publication de 1968 - 69 par une classification fondée sur l'importance de la commission scolaire qui emploie les enseignants, et on distingue les catégories suivantes:

1. Commissions scolaires employant 2,000 instituteurs ou plus.
2. Commissions scolaires employant de 1,000 à 1,999 instituteurs.
3. Commissions scolaires employant de 500 à 999 instituteurs.
4. Commissions scolaires employant de 100 à 499 instituteurs.
5. Commissions scolaires employant moins de 100 instituteurs.

Le nombre sans cesse croissant de commissions scolaires géographiquement très étendues qui assurent les mêmes bénéfices aux instituteurs des centres urbains qu'à ceux des régions rurales environnantes explique en partie ce changement. Ainsi, l'ancienne classification, par catégories, établissant une distinction entre les instituteurs employés par une même commission scolaire a été supprimée. La nouvelle classification fait que tous les instituteurs appartenant à une même commission scolaire sont inclus dans la même catégorie; mais, d'autre part, elle tient compte dans une certaine mesure des différences provenant de la variation de la population indiquée par l'effectif de l'unité administrative.

Le changement précité ne permet pas de continuer les tableaux historiques suivants publiés dans les numéros antérieurs à l'année 1968 - 69:

1. Expérience médiane des instituteurs selon le genre de localité.
2. Stabilité médiane des instituteurs selon le genre de localité.
3. Traitement médian des instituteurs selon le genre de localité.

Voici les nouveaux tableaux historiques compilés en 1968 - 69 pour la première fois:

1. Expérience médiane des instituteurs par province et sexe — Tableau 5.
2. Stabilité médiane des instituteurs par province et sexe — Tableau 6.
3. Proportion d'instituteurs possédant des grades universitaires par province et niveau d'enseignement — Tableau 3.

### Niveau d'enseignement

Comme nombre d'utilisateurs ont besoin de statistiques sur l'éducation pour classer les instituteurs suivant le niveau "élémentaire" ou "secondaire", le présent rapport s'efforce d'établir la distinction entre ces deux niveaux. Il importe de retenir, toutefois, que beaucoup d'instituteurs occupent des postes soit d'enseignement ou de surveillance chevauchant les deux niveaux d'éducation et qu'on ne peut pas faire, en réalité, une distinction précise entre l'"élémentaire" et le "secondaire" valable pour toutes les provinces.

In classifications of teachers by teaching level, teachers are grouped according to the grades they teach (or supervise) and the type of school to which they are assigned. For example, a teacher of Grades 7 and 8 will be classified as "secondary" if teaching in a junior-high school, but will be classified as "elementary" if teaching in a school with Grades 1 - 8.

For purposes of record and to facilitate interpretation of the statistical tables, following are the definitions used to arrive at the teaching level distinction:

1. A teacher who teaches any grade or combination of Grades 1 - 6 but no grade above 6 is classified as "elementary".
2. A teacher who teaches any grade or combination of Grades 9 - 13 but no grade below 9 is classified as "secondary".
3. A teacher whose assignment does not fit into either of the two previous categories is classified as "secondary" if he teaches in a junior-high school or junior-senior high school, or if he teaches in more than one school; otherwise he is counted as "elementary".

The only exception to these definitions is for the province of British Columbia where, because of the district (1 - 7, 8 - 13) organization of schools, teachers of Grades 1 - 7 are classified as elementary and 8 - 13 are classified as secondary.

In application of the above definitions, those school personnel who do not teach are classified according to the grades they supervise.

It is to be observed that the definitions used from 1968 - 69 on are different from those used for previous years when teachers who taught both elementary and secondary grades were classified according to size and location of school (see publications prior to 1968 - 69 for exact definitions). It can also be observed from the following table that the change in definition has resulted, for most provinces, in an increase in the proportion of teachers classified as elementary, the effect being most noticeable for the province of Alberta.

La classification des instituteurs par niveau d'enseignement groupe ceux-ci suivant le grade (ou le niveau de la surveillance) et le genre d'école où ils enseignent. Par exemple, un instituteur de 7<sup>e</sup> ou 8<sup>e</sup> année sera classé au niveau "secondaire" s'il enseigne dans une école intermédiaire, mais au niveau "élémentaire" s'il enseigne dans une école de 1<sup>re</sup> à 8<sup>e</sup> année.

Aux fins administratives et pour faciliter l'interprétation des tableaux statistiques, les définitions suivantes servent à distinguer le niveau d'enseignement:

1. Un instituteur qui enseigne dans une ou plusieurs classes de la 1<sup>re</sup> à la 6<sup>e</sup> année mais pas au-delà de la 6<sup>e</sup> année est classé au niveau "élémentaire".
2. Un instituteur qui enseigne dans une ou plusieurs classes de la 9<sup>e</sup> à la 13<sup>e</sup> année mais pas au-dessous de la 9<sup>e</sup> année est classé au niveau "secondaire".
3. Un instituteur dont le poste ne correspond ni à l'une ni à l'autre de ces deux catégories est classé au niveau "secondaire" s'il enseigne dans une école intermédiaire (élémentaire) ou dans une école intermédiaire (secondaire) ou s'il enseigne dans plus d'une école; autrement, il est classé au niveau "élémentaire".

La seule exception à cette règle vise la province de la Colombie-Britannique où, étant donné l'organisation des écoles de district (1-7, 8-12), les instituteurs de la 1<sup>re</sup> à la 7<sup>e</sup> année sont classés au niveau élémentaire et ceux de la 8<sup>e</sup> à la 12<sup>e</sup> année sont classés au secondaire.

En appliquant ces définitions, le personnel scolaire qui n'enseigne pas est classé suivant les grades qu'il surveille.

Il convient d'observer que les définitions retenues à partir de 1968 - 69 sont différentes de celles employées les années précédentes, alors que les instituteurs qui enseignaient tant au niveau élémentaire que secondaire étaient classés suivant l'importance de l'école et la localité où elle se trouvait (voir les définitions exactes dans les publications antérieures à l'année 1968 - 69). On observera aussi, d'après le tableau suivant, que le fait de modifier la définition a provoqué, dans la plupart des provinces, l'accroissement de la proportion des instituteurs classés au niveau élémentaire, ceci étant particulièrement notable en Alberta.

**Elementary Teachers as a Percentage of All Teachers, 1967 - 68 to 1969 - 70**  
**Proportion d'instituteurs du niveau élémentaire par rapport au nombre total d'instituteurs,**  
**1967 - 68 à 1969 - 70**

| British Columbia — Colombie-Britannique .....      | 57.6      | 58.8      | 58.2  |
| Eight provinces — Huit provinces .....             | 62.1      | 65.4      | 64.1  |

The change in definition should be kept in mind when comparing data for 1968 - 69 and 1969 - 70 with data for previous years.

### Certificates

Over the past few years the DBS classification of certificates for this report has been expanded from four to ten categories. Table 2 illustrates this progressive development.

The classification in this report using "Levels" attempts to equate the various certificates of the eight provinces on the basis of the minimum number of years of academic and professional training required for the certificates related to the base of junior matriculation level.<sup>1</sup>

| Level | { Years of required training   |               |   |
|-------|--|---------------|---|
|       | beyond Junior  | Matriculation | Level   |
| 8     | .....  | 8             | } of which at least one year is professional training |
| 7     | .....  | 7             |   |
| 6     | .....  | 6             |   |
| 5     | .....  | 5             |   |
| 4     | .....  | 4             |   |
| 3     | .....  | 3             |   |
| 2     | .....  | 2             |   |
| 1     | .....  | 1             |   |
| 0     | ..... Commonly Junior Matriculation plus less than one year (usually 6 weeks but sometimes 12, 18 or 24 weeks) of professional training; or no professional training, regardless of academic standing. |               |   |

No attempt is made to distinguish between "Less than Level 1" and "Level 0" as was done previous to 1965 - 66. It has been found that the lines of distinction between the various permits, letters of authority, letters of permission, etc., have become increasingly vague to the point where interprovincial comparisons between the two levels would be both meaningless and misleading.

Tables 21 to 24 represent a classification of teachers according to certificates — ordinary (basic) or special. Teaching certificates are normally issued by the provincial departments of education according to the professional and academic training of the teachers. Certain provinces, however, may not give as much credit for advanced academic training as others, so that some teachers with Level 4 certificates in a province where this is the upper limit of certificates may have the qualifications for a Level 5, 6 or 7 certificate in others.

Teachers holding a basic certificate from another province, but teaching on a permit (Level 0), are classified according to their original certificates.

<sup>1</sup> The requirement for entrance to a four-year general arts course or equivalent.

Ne pas oublier qu'il y a eu un changement de définition lors de la comparaison des données des années 1968 - 69 et 1969 - 70 avec celles des années antérieures.

### Brevets

Au cours des dernières années, le classement des brevets pour ce rapport a été porté de quatre à dix catégories, (Tableau 2).

Le classement par "classes" tente de mettre au même niveau les différents brevets des huit provinces en fonction du nombre minimum d'années de formation scolaire et pédagogique requises pour les brevets venant après l'immatriculation junior<sup>1</sup>.

| Classe      | { Années de formation requises<br>après l'immatriculation junior  |  |
|-------------|---|--|
| 8 . . . . . | 8   | } dont au moins<br>une année de formation<br>pédagogique |
| 7 . . . . . | 7   |  |
| 6 . . . . . | 6   |  |
| 5 . . . . . | 5   |  |
| 4 . . . . . | 4   |  |
| 3 . . . . . | 3   |  |
| 2 . . . . . | 2   |  |
| 1 . . . . . | 1   |  |
| 0 . . . . . | Habituellement l'immatriculation junior et<br>moins d'une année (ordinairement 6 se-<br>maines, mais parfois 12, 18 ou 24 semai-<br>nes) de formation pédagogique ou sans<br>formation pédagogique sans regarder le<br>rang académique. |  |

On ne cherche pas à faire la distinction entre "Classe - 1" et "Classe 0" comme cela se faisait avant 1965 - 66. On a constaté que la distinction entre les divers permis, lettres d'autorisation, lettres de permission, etc. devenait de plus en plus vague au point que les comparaisons interprovinciales entre les deux classes seraient dépourvues de sens et trompeuses.

Les Tableaux 21 à 24 donnent le classement des instituteurs selon le brevet — ordinaire (de base) ou spécial. Les brevets d'enseignement sont normalement délivrés par les ministères provinciaux de l'Instruction publique selon la formation scolaire et pédagogique. Certaines provinces, toutefois, peuvent accorder moins d'importance que d'autres à la scolarité, de sorte que des instituteurs détenant un brevet de Classe 4 dans une province où cet échelon est le plus élevé pourraient appartenir à la Classe 5, 6 ou 7 dans une autre province.

Les instituteurs qui détiennent un brevet de base d'une autre province mais enseignent en vertu d'un permis (Classe 0) sont classés selon leur brevet.

<sup>1</sup> Minimum requis pour l'admission au cours général des arts de quatre ans, ou l'équivalent.

With all due regard to the tables which classify teachers by certificate level as described above, it should be understood that these classifications do not provide a good basis on which to equate levels of education of the teaching force. Comparisons of education levels inferred from certificate levels would be valid if each province issued a certificate for each year of education beyond high school but the fact is that several provinces do not have such certificate schemes.

For the school year covered by this report, only Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick have certificate schemes graduated for successive years of education. At present, British Columbia issues only three certificates: Teaching Licence, Standard Certificate and Professional Certificate corresponding to DBS Levels 2, 3 and 4 respectively, but old certificates have not been converted. As a result most of the teachers reported certificates obtained under the old scheme which provided a certificate for each successive year of education. In Alberta, only three certificates (Standard E, Standard S and Professional) are issued, the first two being granted after two years of the university education program (DBS Level 3) and the third after the third year (DBS Level 4). In Manitoba, two basic certificates only are issued (the First Class at the end of a one-year program after Grade XII and the Professional at the end of a one-year program after a bachelor's degree). In Saskatchewan, three certificates are issued corresponding to the DBS Levels 2, 3 and 5.

In those provinces which do not have a graduated certificate scale, a separate mechanism has been set up to evaluate a teacher's education record and to place each teacher on a scale for grant and/or salary purposes. Every teacher, then, is assigned a numerical value which gives the number of years of education recognized for salary or grant purposes. In Alberta, a teacher may also receive credit for fractions of years completed.

In Tables 36 and 38, an attempt has been made to classify all teachers and principals by recognized years of teacher education beyond the junior matriculation level. This, in itself, has produced one problem in that the scales for the three prairie provinces use senior matriculation (Grade XII) as the base. It is because of this that there are no entries in the "less than 1 year" category for these provinces.

For the four Atlantic provinces and British Columbia, "years of education" was taken directly from the DBS "certificate level".

### University Degrees

Teachers and principals are classified according to the highest degree held without distinction between academic and professional degrees.

Compte tenu des tableaux qui classent les instituteurs suivant la classe de brevet, comme on l'explique plus haut, il faut comprendre que ces classements ne constituent pas une bonne base de comparaison des niveaux d'instruction du personnel enseignant. Les comparaisons entre les niveaux d'instruction faites à partir des classes de brevets seraient valables si chaque province délivrait un brevet pour chaque année d'instruction au-dessus du niveau secondaire, mais plusieurs provinces n'ont pas de tels régimes de brevets.

Pour l'année scolaire étudiée ici, seules les provinces de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick ont des régimes de brevets suivant les années successives d'enseignement. Ne sont délivrés à l'heure actuelle en Colombie-Britannique que trois brevets: la licence d'enseignement, le brevet général et le brevet professionnel qui correspondent aux Niveaux 2, 3 et 4 respectivement du B.F.S. Mais les anciens brevets n'ont pas été convertis et, en conséquence, la plupart des instituteurs ont déclaré des brevets obtenus sous l'ancien régime, soit un brevet pour chaque année d'études successive. En Alberta, ne sont délivrés que trois brevets (Classe E, Classe S et brevet professionnel), les deux premiers après deux années d'études universitaires (Niveau 3 du B.F.S.) et le troisième après trois années d'études (Niveau 4 du B.F.S.). Au Manitoba, deux brevets de base seulement sont délivrés (brevet de 1<sup>re</sup> classe au terme d'une année d'études au-delà de la 12<sup>e</sup> année, et brevet professionnel au terme d'une année d'études au-delà du baccalauréat. En Saskatchewan, il existe trois brevets, qui correspondent aux Niveaux 2, 3 et 5 du B.F.S.

Dans les provinces qui n'ont pas d'échelle graduée de brevets, on a instauré un mécanisme distinct pour évaluer le dossier de formation professionnelle d'un instituteur et pour classer chaque instituteur aux fins de subventions et (ou) de traitement. Il est alors assigné à chaque instituteur une valeur numérique qui donne le nombre d'années de scolarité reconnues aux fins de traitement ou de subvention. En Alberta, on tient également compte à instituteur de ses fractions d'année de scolarité.

Aux Tableaux 36 et 38, on a tenté de classer tous les instituteurs et directeurs suivant les années reconnues de formation pédagogique au-dessus du niveau de la première immatriculation. Cela a créé des difficultés du fait que les échelles de traitement pour les trois provinces des Prairies sont fondées sur l'immatriculation supérieure (12<sup>e</sup> année). C'est à cause de cela qu'il n'y a pas d'inscriptions dans la catégorie de "moins d'un an" pour ces provinces.

Pour les quatre provinces atlantiques et la Colombie-Britannique, les mots "années de scolarité" ont été empruntés directement du "niveau du brevet" du B.F.S.

### Degrés universitaires

Les instituteurs et directeurs sont classés selon leur plus haut grades, sans faire de distinction entre les grandes scolaires et professionnels.

### Experience

Tables 29 and 30 give data on total teaching experience and Tables 31 and 32 on tenure. For the purposes of this report, tenure is defined as "experience with the present school board, which may or may not be continuous".

### Average Salaries

Salary medians for the total teaching force of a province do not offer a good basis for interprovincial comparison since these groups are heterogeneous in structure. With years of training, experience, university degrees and other characteristics such as teaching level, teaching position, and size of employing school board varying widely, it is unwarranted to compare medians without eliminating as many of these factors as possible. While it might be desirable to classify the teaching force of each province by each of these factors, a lack of uniformity in requirements for certificates and in recognition of years of teaching experience for salary purposes, plus limitations imposed by the size of the teaching force, make such an analysis impossible.

### Calculation of Percentiles from Salary Distributions

In this report, all percentiles were calculated from distributions having \$100 intervals. Teachers drawing no salary or "unclassified" were omitted in calculating the percentiles. Wherever a column contained fewer than 30 teachers, percentiles were not calculated. The median is the middle point in a distribution. Half the teachers received salaries lower, half received salaries higher, than this figure. Commonly the arithmetic mean of the salaries of teachers is higher than the median. This difference may in some cases be as much as two or three hundred dollars, because the arithmetic mean is strongly affected by a relatively small number of teachers who are at a much higher level on the salary scale.

### Migrated Teachers

In several editions of this publication, previous to 1965 - 66, a table was provided to show the number of "migrated teachers" in each province. Migrated teachers were defined as those who possessed a certificate from another province or country and also had some teaching experience in that province or country.

Beginning with the year 1965 - 66, the table on migrated teachers was discontinued and is replaced by a tabulation showing all teachers in a province classified according to the province or country of their initial teaching certificate.

When comparing the present table with the ones previous to 1965 - 66 on migrated teachers, the change in definition should be remembered.

### Expérience

Les Tableaux 29 et 30 traitent de l'expérience dans l'enseignement et les Tableaux 31 et 32, des états de service. Aux fins du présent rapport, les états de service comprennent les années d'expérience avec la commission scolaire actuelle, que ce soit un service continu ou non.

### Moyennes des traitements

Les traitements médians du total du personnel enseignant d'une province ne permettent pas la comparaison interprovinciale, car ces groupes ont une structure. Comme les années de formation et d'expérience, les grades universitaires et d'autres caractéristiques (comme le niveau d'enseignement, le poste, et l'importance de la commission scolaire qui l'emploie) varient considérablement; il n'est pas juste de comparer les médianes sans éliminer autant de ces facteurs que possible. Alors qu'il y aurait peut-être lieu de classer l'effectif enseignant de chaque province en rapport avec chacun de ces facteurs, le manque d'uniformité, quant aux qualités requises pour obtenir le brevet et aux années d'enseignement admises comme expérience pour établir les traitements, outre les restrictions qu'impose l'importance du corps enseignant, rend l'analyse impossible.

### Calcul des percentiles des répartitions de traitements

Dans le présent rapport, tous les percentiles sont calculés à partir des répartitions ayant des intervalles de \$100. Les instituteurs sans traitements ou "non classés" sont omis du calcul des percentiles. Chaque fois qu'une colonne comprend moins de 30 instituteurs, les percentiles ne sont pas calculés. La médiane est le point central d'une répartition. La moitié des instituteurs touchait un traitement inférieur à ce chiffre et la moitié, un traitement supérieur. Ordinairement, la moyenne arithmétique des traitements des instituteurs est plus élevée que la médiane. La différence peut atteindre en certains cas jusqu'à deux ou trois cent dollars, parce que la moyenne arithmétique se ressent du nombre relativement peu élevé d'instituteurs à l'échelon le plus élevé de l'échelle des traitements.

### Instituteurs migrants

Plusieurs éditions de la présente publication avant 1965 - 66 présentaient sous forme de tableau le nombre d'"instituteurs migrants" dans chaque province. Ceux-ci étaient décrits comme titulaires d'un brevet d'une autre province ou d'un autre pays, qui avaient quelque expérience de l'enseignement dans la province ou le pays en cause.

A partir de 1965 - 66, le tableau sur les instituteurs migrants a été supprimé et remplacé par un tableau donnant tous les instituteurs d'une province classés selon la province ou le pays où ils ont obtenu leur premier brevet d'enseignement.

En comparant le présent tableau avec ceux des années antérieures à 1965 - 66 sur les instituteurs migrants, on tiendra compte de la nouvelle définition.

Table 34 shows the percentage of teachers in each province who received their initial teaching certificate from outside the province. It should be clearly understood that not all of those "migrated teachers" came to the province where now teaching, in the year under review.

#### Age

Data on teachers classified by age which appeared for the first time last year are included again for the year under review. Tables 36 to 37 give data by age-group, years of education and sex for eight provinces. The age of a teacher is determined from year of birth and therefore, must be considered as age as of December 31, 1969.

### REVIEW OF STATISTICS

#### Number of Teachers

Between 1950 - 51 and 1969 - 70 the number of full-time teachers and principals in public schools of Canada increased by nearly 178 per cent, from 89,682 to 249,078. By far the greatest percentage increase was in Ontario (243 per cent), followed by British Columbia (232 per cent), Alberta (192 per cent), Quebec (165 per cent), Newfoundland (153 per cent), Manitoba (124 per cent), Nova Scotia (113 per cent), Prince Edward Island (107 per cent), New Brunswick (100 per cent), and Saskatchewan (60 per cent).

The 249,078 teachers and principals employed full-time in 1969 - 70 were distributed amongst the provinces as follows: Ontario 36.1 per cent, Quebec 28.4 per cent, British Columbia 8.4 per cent, Alberta 8.0 per cent, Saskatchewan 4.6 per cent, Manitoba 4.5 per cent, Nova Scotia 3.8 per cent, New Brunswick 3.1 per cent, Newfoundland 2.5 per cent, and Prince Edward Island 0.6 per cent.

#### Sex and Marital Status

Of all teachers and principals in the eight provinces exclusive of Quebec and Ontario 38.2 per cent were men, a slight increase from the 37.2 per cent recorded in 1968 - 69. As in previous years, British Columbia had the highest (45.0 per cent) and Prince Edward Island the lowest percentage of men teachers (26.2 per cent).

In 1969 - 70, 59.9 per cent of all women teachers were married women. Newfoundland had the lowest percentage of married women teachers (43.9 per cent) and Prince Edward Island had the highest (65.9 per cent).

Almost 2.7 per cent of all teachers outside of Quebec and Ontario were members of R.C. religious orders or secular priests. British Columbia is the only province, with no religious teachers in the public schools system.

Le Tableau 34 montre la proportion des instituteurs de chaque province ayant reçus leur brevet d'enseignement hors de la province. Il importe d'établir clairement que les "instituteurs migrants" qui sont venus dans la province où ils enseignent maintenant ne sont pas tous venus pendant l'année en revue.

#### Âge

Les données sur les instituteurs classés par âge qui ont paru l'année dernière pour la première fois sont encore inclus pour l'année en revue. Les Tableaux 36 et 37 donnent les statistiques par groupe d'âge, années d'expérience, années d'étude et sexe pour huit provinces. L'âge de l'instituteur est déterminé d'après l'année de naissance et, par conséquent, doit être considéré comme son âge au 31 décembre 1969.

### EXAMEN DES DONNÉES STATISTIQUES

#### Nombre d'instituteurs

De 1950 - 51 à 1969 - 70, le nombre d'instituteur à plein temps et de directeurs dans les écoles publiques du Canada a augmenté de presque 178 p. 100, soit de 89,682 à 249,078. C'est l'Ontario qui a accusé la plus forte augmentation en pourcent (243 p. 100) suivie de la Colombie-Britannique (232), de l'Alberta (192), du Québec (165), de Terre-Neuve (153), du Manitoba (124), de la Nouvelle-Écosse (113), de l'Île-du-Prince-Édouard (107), du Nouveau-Brunswick (100) et de la Saskatchewan (60).

Voici la répartition provinciale des 249,078 instituteurs et directeurs d'écoles employés à plein temps en 1969 - 70. Ontario 36.1 p. 100; Québec, 28.4; Colombie-Britannique, 8.4; Alberta, 8.0; Saskatchewan, 4.6; Manitoba, 4.5; Nouvelle-Écosse, 3.8; Nouveau-Brunswick, 3.1; Terre-Neuve, 2.5; et l'Île-du-Prince-Édouard, 0.6.

#### Sexe et état matrimonial

De tous les instituteurs et directeurs des huit provinces, (à l'exclusion du Québec et de l'Ontario), 38.2 p. 100 étaient des hommes, soit une légère augmentation par rapport aux 37.2 p. 100 enregistrés en 1968 - 69. Comme par le passé, la Colombie-Britannique a eu le plus fort pourcentage (45.0 p. 100) et l'Île-du-Prince-Édouard le plus faible (26.2 p. 100) des instituteurs de sexe masculin.

En 1969 - 70, 59.9 p. 100 de toutes les institutrices étaient mariées. Terre-Neuve accusait la plus faible proportion d'institutrices mariées (43.9 p. 100) et l'Île-du-Prince-Édouard, la proportion la plus élevée (65.9 p. 100).

Près de 2.7 p. 100 de tous les instituteurs hors du Québec et de l'Ontario étaient membres de communautés religieuses catholiques ou prêtres séculiers catholiques. La Colombie-Britannique est la seule province qui n'ait pas d'instituteurs religieux dans les écoles publiques.

## Teaching Level

Of all teachers outside of Quebec, and Ontario 64.1 per cent were instructing elementary grades (including kindergarten) and 35.9 per cent secondary grades.

## Salaries

The median salary for all teachers and principals in public elementary and secondary schools of the eight provinces exclusive of Quebec and Ontario was \$7,124. This represents an increase of 9.7 per cent from the 1968 - 69 median salary for the same eight provinces.

It should be recognized that variations in median salaries do not necessarily indicate variations in the salary schedules on which teachers are being paid. Since salary scales are based on both years of education and years of teaching service, improvements in the teaching force on either of these two factors could conceivably cause an increase in the median salary while the salary scale remained constant. For this reason, caution should be exercised in the use of the median as a value for interprovincial and historical comparisons unless the effects of other contributing factors can be isolated and measured.

In 1969 - 70, the teachers and principals instructing or supervising elementary grades in "public" schools received a median salary of \$6,420 and those in R.C. separate schools, \$6,921, R.C. religious elementary teachers in public and separate schools had a median salary of \$6,953.

The median salary for secondary teachers and principals in "public" schools was \$8,538, in R.C. separate schools, \$8,803, whereas the median for all R.C. religious secondary teachers was \$9,376.

The average salary (arithmetic mean) of principals and vice-principals of elementary schools was \$9,803, and that of the secondary school principals and vice-principals, \$11,445. The corresponding averages for teachers were \$6,411 and \$8,303.

## Certificates

Of the 88,449 teachers and principals who reported levels of certificate for the eight provinces other than Quebec and Ontario, 463 teachers did not possess a basic or ordinary certificate, or permit.

The proportion of teachers with Level 0 certificates (less than one year of academic or professional training) rose sharply during the war years from slightly over 2 per cent in 1940 to almost 14 per cent in 1945 and then decreased to 9.6 per cent in 1950, and 3.6 per cent, in the year under review.

## Niveau d'enseignement

De tous les instituteurs hors du Québec et de l'Ontario, 64.1 p. 100 enseignaient les classes élémentaires (y compris le jardin d'enfance) et 35.9 p. 100, les classes secondaires.

## Traitements

Le traitement médian de tous les instituteurs et directeurs des écoles publiques élémentaires et secondaires des huit provinces autres que le Québec et l'Ontario était de \$7,124. Ceci représente une augmentation de 9.7 p. 100 du traitement médian de l'année 1968 - 69 pour les huit mêmes provinces.

Il y a lieu de signaler que les variations du traitement médian ne correspondent pas nécessairement à des variations des échelles de traitement des instituteurs. Comme les échelles de traitements sont fondées sur la scolarité et l'expérience de l'enseignement, l'amélioration du personnel enseignant à l'un ou l'autre de ces points de vue peut fort bien entraîner un relèvement du traitement médian, l'échelle de traitement demeurant constante. Aussi faut-il être prudent lorsqu'on utilise le traitement médian comme valeur aux fins de comparaison d'une province à l'autre ou d'une période à l'autre, à moins de pouvoir isoler et mesurer les autres facteurs qui entrent en ligne de compte.

En 1969 - 70, les instituteurs et directeurs d'écoles qui enseignaient ou surveillaient dans les classes élémentaires des écoles "publiques" recevaient un traitement médian de \$6,420 et ceux des écoles catholiques séparées, de \$6,921. Les religieux et religieuses dans les écoles publiques et séparées catholiques (niveau élémentaire) avaient un traitement médian de \$6,953.

Le traitement médian des instituteurs et directeurs secondaires dans les écoles "publiques" était de \$8,538, celui des écoles séparées catholiques, de \$8,803; tandis que celui de tous les enseignants religieux des écoles secondaires était de \$9,376.

Le traitement moyen (moyenne arithmétique) des directeurs et sous-directeurs dans les écoles élémentaires était de \$9,803 et celui des directeurs et sous-directeurs dans les écoles secondaires de \$11,445. Les moyennes correspondantes des instituteurs étaient de \$6,411 et \$8,303.

## Brevets

Sur les 88,449 instituteurs et directeurs qui déclarent leur niveau de brevet pour les huit provinces autres que le Québec et l'Ontario, 463 instituteurs ne possédaient pas de certificat ou de brevet de base ou ordinaire.

La proportion d'instituteurs détenant un brevet de Classe 0 (moins d'une année de formation scolaire et professionnelle) a monté en flèche pendant la guerre; elle est en effet passé, de 1940 à 1945, de 2 p. 100 à près de 14 p. 100. Elle est revenue ensuite à 9.6 p. 100 en 1950 et à 3.6 p. 100 durant l'année observée.

In 1948 - 49, 16.4 per cent of all teachers and principals had at least four years of training (academic and professional) while 20.6 per cent had only one year. Since then the proportion with one year of training has decreased to 6.4 per cent in 1969 - 70 while the proportion with four or more years of training has increased to 45.3 per cent. The proportion of teachers teaching with Level 2 and Level 3 certificates did not change appreciably between 1948 and 1962, varying from 51 per cent to 59 per cent. Since then it has begun to decline reaching a low of 44.1 per cent in the year under review.

The tables on teachers' certificates show that, on the average, the proportion of women with lower levels of certificate is higher than that of men, at both the elementary and secondary levels.

### University Degrees

Of the 88,449 teachers and principals in the eight provinces for which data are available (Quebec and Ontario excepted), 38,101 or 43.1 per cent held one or more university degrees. The proportion of men with degrees was 67.4 per cent and that of women 28.0 per cent.

Whereas 72.3 per cent of all secondary teachers and principals had one or more university degrees, only 26.7 per cent of the elementary teachers and principals were university graduates.

The highest percentage of university graduates was found in British Columbia (53.7 per cent) followed by Alberta (52.8 per cent), Nova Scotia (39.1 per cent), Manitoba (37.7 per cent), Saskatchewan (34.0 per cent), New Brunswick (32.9 per cent), Newfoundland (26.3 per cent), and Prince Edward Island (24.6 per cent).

The proportion of teachers holding university degrees has been increasing steadily. In 1944 - 45 it was 16.9 per cent; in 1954 - 55, 21.9 per cent; in 1959 - 60, 24.7 per cent; in 1963 - 64, 30.4 per cent; and in the year under review, 43.1 per cent.

### Teaching Experience

The median experience for all teachers and principals in the eight provinces (exclusive of Quebec and Ontario) was 7.3 years in 1969 - 70.

The median experience for elementary teachers was slightly higher than for secondary teachers (7.4 years and 7.1 years respectively).

At both levels of teaching there was a considerable variation amongst the provinces. Median experience for elementary teachers varied from 5.0 years in New-

En 1948 - 49, 16.4 p. 100 de tous les instituteurs et directeurs avaient au moins quatre ans de formation (scolaire et professionnelle), tandis que 20.6 p. 100 n'avaient qu'un an de formation. Depuis, la proportion d'instituteurs et de directeurs n'ayant qu'un an de formation a diminué à 6.4 p. 100 en 1969 - 70, tandis que celle des instituteurs ayant quatre ans ou plus de formation a augmenté à 45.3 p. 100. La proportion d'instituteurs enseignant avec un certificat du Niveau 2 et 3 n'a pas beaucoup changé entre 1948 et 1962 variant de 51 p. 100 à 59 p. 100. Depuis ce temps, elle a commencé à diminuer et a atteint une baisse de 44.1 p. 100 pour l'année en revue.

Les tableaux relatifs aux certificats des instituteurs indiquent qu'en moyenne la proportion de femmes ayant un certificat d'un niveau inférieur est plus élevée que chez les hommes, tant au niveau élémentaire que secondaire.

### Grades universitaires

Sur les 88,449 instituteurs et directeurs dans les huit provinces pour lesquelles des données sont disponibles (sauf le Québec et l'Ontario), 38,101 ou 43.1 p. 100 détenaient un grade universitaire ou plus. La proportion des hommes ayant un grade était de 67.4 p. 100 et celle des femmes, de 28.0 p. 100.

Tandis que 72.3 p. 100 de tous les instituteurs et directeurs secondaires avaient un grade universitaire ou plus, seulement 26.7 p. 100 des instituteurs et directeurs élémentaires possédaient un grade universitaire.

La plus forte proportion de diplômés universitaires se trouvait en Colombie-Britannique (53.7 p. 100), puis en Alberta (52.8), en Nouvelle-Écosse (39.1), au Manitoba (37.7), en Saskatchewan (34.0), au Nouveau-Brunswick (32.9), à Terre-Neuve (26.3), et sur l'Île-du-Prince-Édouard (24.6).

La proportion d'instituteurs détenant un grade universitaire s'est accrue régulièrement. En 1944 - 45, elle était de 16.9 p. 100; en 1954 - 55, de 21.9 p. 100; en 1959 - 60, de 24.7 p. 100; en 1963 - 64, de 30.4 p. 100; et dans l'année observée, de 43.1 p. 100.

### Expérience dans l'enseignement

L'expérience médiane de tous les instituteurs et directeurs dans les huit provinces (à l'exception du Québec et de l'Ontario) était de 7.3 années en 1969 - 70.

Le nombre médian d'années d'expérience des instituteurs de l'élémentaire était un peu plus élevé que celui des instituteurs du secondaire (7.4 et 7.1 années respectivement).

Aux deux niveaux de l'enseignement, un écart considérable existait d'une province à l'autre; l'expérience médiane des instituteurs élémentaires variait de 5.0 années

foundland to almost twice as much (9.8 years) in Nova Scotia, and the median for secondary teachers from 5.9 years in Newfoundland to 8.2 years in British Columbia.

The median years of experience for women was higher than that for men in all provinces except Manitoba, and British Columbia where median years of experience for men was higher at both elementary and secondary levels of teaching.

#### Experience with Present School Board (Tenure)

Generally speaking, median tenure increased a small amount each year (from 1.4 years in 1947 to 3.1 years in the year under review), except from 1964 to 1968 when it decreased from 3.1 years to 2.8 years respectively.

In 1969-70 median tenure for elementary teachers was 3.1 years, and for secondary teachers it was 3.0 years.

Newfoundland has the lowest median for elementary and secondary teachers (2.1 and 1.9 respectively), whereas Nova Scotia at the elementary level (4.6) and British Columbia at the secondary level (3.6) had the highest median.

à Terre-Neuve à presque deux fois autant (9.8 années) en Nouvelle-Écosse, et la médiane des instituteurs secondaires, de 5.9 années à Terre-Neuve à 8.2 années en Colombie-Britannique.

Le nombre médian d'années d'expérience était plus élevé chez les femmes que chez les hommes dans toutes les provinces, sauf au Manitoba et en Colombie-Britannique, où il était plus élevé chez les hommes aux niveaux élémentaire et secondaire.

#### Expérience acquise avec la Commission scolaire actuelle (service courant)

En général, le service courant médian a augmenté quelque peu chaque année (de 1.4 années en 1947 à 3.1 pour l'année en revue excepté pendant les années de 1964 à 1968 lorsqu'il diminua de 3.1 années à 2.8 années respectivement.

En 1969-70, le service médian des instituteurs élémentaires était de 3.1 années et celui des instituteurs secondaires était de 3.0 années.

Terre-Neuve accuse la médiane la plus basse à l'égard des instituteurs de l'élémentaire et du secondaire (2.1 et 1.9 respectivement), tandis que la Nouvelle-Écosse au niveau élémentaire (4.6) et la Colombie-Britannique, au niveau secondaire (3.6) accusaient la médiane la plus élevée.

<sup>1</sup> Teachers in schools under control only. — Instituteurs dans les écoles sous contrôle seulement.

<sup>2</sup> Ontario figures revised to include full-time itinerant teachers from 1960-61 on. — Les chiffres de l'Ontario ont été révisés, afin d'inclure les instituteurs itinérants à plein temps à compter de 1960-61.

<sup>3</sup> Estimate. — Estimation.

<sup>4</sup> Restrictive age requirements for students entering public schools at the Grade I level resulted in a decrease in the estimated number of teachers. — Des conditions restrictives en ce que concerne l'âge des étudiants commençant dans les écoles publiques en première année ont fini par causer une baisse dans le nombre d'instituteurs estimés.

<sup>5</sup> Decrease reflects a change in definition of secondary grades in Quebec. — Cette baisse démontre le changement apporté à la définition des classes secondaires du Québec.

<sup>1</sup> Teaching experience as of the opening of school in September. — Expérience pédagogique au début de l'année scolaire en septembre.

<sup>2</sup> Also excludes Ontario up to 1959-60 and in 1968-69 and 1969-70, and Saskatchewan in 1965-66. — A l'exclusion de l'Ontario jusqu'à 1959-60 ainsi qu'en 1968-69 et 1969-70 et de la Saskatchewan en 1965-66.

<sup>3</sup> In these years teachers reported experience to the end of the school year under review. As a result, one year had to be subtracted from the median experience published in these annual reports. — Durant ces années, les instituteurs déclaraient l'expérience à la fin de l'année scolaire en revue. Il fallait donc soustraire une année de l'expérience médiane publiée dans ces rapports annuels.

TABLE 6. Median Tenure<sup>1</sup> of Teachers by Province (Quebec excepted)<sup>2</sup>, 1950-51 to 1969-70  
TABLEAU 6. Stabilité<sup>1</sup> médiane des instituteurs par province (sauf le Québec<sup>2</sup>), 1950-51 à 1969-70

<sup>1</sup> Teaching experience with present school board as of the opening of school in September. — Expérience pédagogique avec la commission scolaire actuelle au début de l'année scolaire en Septembre.

<sup>2</sup> Also excludes Ontario up to 1959-60 and in 1968-69 and 1969-70, Newfoundland and Nova Scotia in 1949-50, New Brunswick in 1963-64 and Saskatchewan in 1965-66. — A l'exclusion de l'Ontario jusqu'à 1959-60 et en 1968-69 et 1969-70, de Terre-Neuve et de la Nouvelle-Ecosse en 1949-50, Nouveau Brunswick en 1963-64 et Saskatchewan en 1965-66.

<sup>3</sup> In these years, teachers reported experience to the end of the school year under review. As a result, one year had to be subtracted from the median tenure published in these annual reports. — Durant ces années, les instituteurs déclaraient l'expérience à la fin de l'année scolaire en revue. Il fallait donc soustraire une année de la stabilité médiane publiée dans ces rapports annuels.

## SECTION VII

### Yukon, N.W.T., Indian Schools, D.N.D. Overseas

### Yukon, T.N.-O., Écoles Indiennes, M.D.N. Outre-mer

#### Tables - Tableaux

39 — 46

#### Yukon

The Territorial Government operates schools in the Yukon with a total staff of 219 teachers and principals. Most of the staff have come from the Western provinces and in 1969 - 70 approximately one-third were teaching for the first time in the Yukon.

#### Northwest Territories

In 1969 - 70, there were 556 teachers and principals in the schools of the Northwest Territories. With the exception of two Company schools, one R.C. separate school and one public school, the schools were all under the jurisdiction of the Department of Education, Government of the Northwest Territories.

Most of the teaching staff for these schools came from Ontario and the Prairies.

#### Indian Schools

Schools for Indian children are operated by the Education Branch, Department of Indian Affairs and Northern Development in provinces except Newfoundland. In 1969 - 70 there were 1,227 teachers and principals in these schools, exclusive of those teachers who were employed by the Indian Affairs Branch to teach Indian children in the public and separate schools.

The teaching staffs of Indian schools were largely drawn from the provinces in which the schools are located.

#### Department of National Defence, Schools Overseas

The Department of National Defence operates several schools in Europe for the children of Canadian servicemen overseas. In 1969 - 70 there were 501 teachers and principals in these schools, almost half of them having come from Ontario.

#### Yukon

Le gouvernement territorial administre les Écoles au Yukon dont le personnel total comprend 219 instituteurs et directeurs. La majeure partie d'entre eux avait été recrutée dans les provinces de l'Ouest et en 1969 - 70 environ un tiers enseignaient pour la première fois au Yukon.

#### Territoires du Nord-Ouest

En 1969 - 70, les écoles des Territoires du Nord-Ouest comptaient 556 instituteurs et directeurs. Sauf deux écoles de Société, une école séparée catholique et une école publique, les écoles étaient sous la juridiction du Ministère de l'Éducation Gouvernement des Territoires du Nord-Ouest.

La plus grande partie du personnel enseignant de ces écoles a été recrutée en Ontario et dans les Prairies.

#### Écoles pour Indiens

Les écoles pour les enfants indiens relèvent de la Direction de l'Éducation, ministère des Affaires indiennes et du Nord canadien dans toutes les provinces sauf à Terre-Neuve. En 1969 - 70, il y avait 1,227 instituteurs et directeurs dans ces écoles, sans compter les instituteurs employés par la Division des affaires indiennes pour enseigner aux enfants indiens dans les écoles publiques et séparées.

Le personnel enseignant des écoles pour Indiens venait en grande partie des provinces où ces écoles sont situées.

#### Ministère de la Défense nationale, écoles outre-mer

Le ministère de la Défense nationale administre plusieurs écoles en Europe pour les enfants des militaires canadiens. En 1969 - 70, il y avait 501 instituteurs et principaux dans ces écoles; presque la moitié d'entre eux viennent de l'Ontario.

TABLE 39. Number of Teachers and Principals, by Sex, Marital Status and Teaching Level, 1969-70

TABLEAU 39. Nombre d'instituteurs et de directeurs selon le sexe, l'état matrimonial et le niveau d'enseignement, 1969-70

## PREFACE

Statistics Canada has published an annual publication on the qualifications, salary and experience of teachers in public elementary and secondary schools since 1939, except for the years 1950-51, 1951-52 and 1955-56. Basic data for these three years are contained in the historical tables of this report.

This publication provides statistics on all full-time school instructional and administrative staff at the elementary-secondary level. Specifically, the publication examines the salaries, qualifications, experience and other socio-economic data of the teaching force, such as age and teacher mobility.

The table formats in this report have been reduced in size in comparison to previous reports. However, detailed table breakdowns comparable to those produced in previous publications are available on request.

This report was prepared in the Elementary-Secondary Education Section of the Education, Science and Culture Division by John MacMillan and Arlene Tamarit.

Requests for additional data and suggestions for modifications and extensions to this report should be directed to C.T. Curteis, Chief of the Elementary-Secondary Section or to Yvon Fortin, Director of the Education, Science and Culture Division.

SYLVIA OSTRY,  
Chief Statistician of Canada.

Statistique Canada a publié, chaque année depuis 1939, sauf pour les années scolaires 1950-51, 1951-52 et 1955-56, un rapport sur la qualification, le traitement et l'expérience des enseignants des écoles publiques élémentaires et secondaires. Les tableaux chronologiques du présent rapport comprennent les principales statistiques des trois années manquantes.

La présente publication fournit des statistiques sur tout le personnel enseignant et administratif à plein temps aux niveaux élémentaire et secondaire. Plus précisément, cette publication étudie les traitements, la qualification, l'expérience et d'autres caractéristiques socio-économiques, telles que l'âge et la mobilité, de la population enseignante.

Dans ce rapport, les dimensions des tableaux ont été réduites comparativement aux rapports précédents. Toutefois, on peut se procurer, sur demande, des ventilations détaillées des tableaux, analogues à celles présentées dans les publications antérieures.

Le présent rapport a été rédigé par John MacMillan et Arlene Tamarit au sein de la Section de l'enseignement élémentaire-secondeaire de la Division de l'éducation, des sciences et de la culture.

Toute demande de renseignements supplémentaires et toute suggestion visant à améliorer et à compléter le rapport doivent être adressées à C.T. Curteis, chef de la Section de l'enseignement élémentaire-secondeaire ou à Yvon Fortin, directeur de la Division de l'éducation, des sciences et de la culture.

Le statisticien en chef du Canada,  
SYLVIA OSTRY.

#### SYMBOLS

The following standard symbols are used in publications of Statistics Canada:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

#### SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.

## INTRODUCTION

### Scope of Data

The current report covers the school years 1970-71 and 1971-72 and presents certain selected historical data. In addition to presenting data for two school years, the majority of the tables in this report will have reduced table formats in comparison to previous reports. However, detailed table breakdowns comparable to those produced in previous publications are available on request.

The survey covers all full-time school instructional, supervisory and administrative personnel and board staff instructing in schools at the beginning of the school years 1970-71 and 1971-72. Excluded from this report are superintendents, assistant superintendents, inspectors and supervisors employed by the provinces or local boards, psychologists, social workers, attendance officers and others involved in pupil personnel services or non-teaching activities and part-time teachers paid on a daily basis. Attempts have been made to avoid duplication of teaching positions, i.e., one teacher is counted for each full-time teaching position. Differences between the number of teachers reported by certain provinces and the numbers in this report result, for the most part, from this coverage definition.

The survey does not cover teachers employed in private schools or special education schools operated directly by provincial governments.

In all tables of this report except Tables 2.6 and 2.7, teachers in Roman Catholic separate schools are not shown separately from those in the public schools. Roman Catholic religious teachers are similarly included in all tables, even though they may also be shown separately, as in Tables 2.4 and 2.5.

The teachers shown as "unclassified" in some of the detail tables are those who completed a return but failed to report one or more of the items under consideration in a particular table.

### Method

All provinces and territories participated in the survey although a limited amount of data were available for Quebec and Ontario.

Each public elementary and secondary school teacher in Canada was asked to complete a questionnaire and return it to his(her) principal. These were ultimately forwarded to their respective Departments of Education for transmission to Statistics Canada for processing or to their own data processing departments depending on the province under consideration.

Data were collected directly by Statistics Canada in co-operation with each of the Provincial Departments of Education in the Atlantic Provinces, Alberta and British Columbia as well as the Territorial Departments of Education in the Yukon and Northwest Territories. In addition to the provincial and territorial schools, comparable data were also collected from the federally operated schools administered by the Department of Indian and Northern Affairs and the Department of National Defence. In the case of Manitoba and Saskatchewan, comparable data were collected by their respective Departments of Education and forwarded to Statistics Canada on computer tape and this data was integrated with that collected directly by Statistics Canada to form the basis of the current report.

### Champ d'application des données

Le présent rapport porte sur les années scolaires 1970-71 et 1971-72 et présente certaines données historiques choisies. Tout en fournissant des données sur deux années scolaires, la plupart des tableaux du rapport se présenteront sous une forme réduite comparativement aux rapports antérieurs. Toutefois, on peut se procurer, sur demande, des ventilations détaillées des tableaux, analogues à celles présentées dans les publications antérieures.

L'enquête vise tout le personnel enseignant, surveillant et administratif à temps plein ainsi que le personnel des conseils scolaires qui enseignait dans les écoles au début des années scolaires 1970-71 et 1971-72. Sont exclus du rapport les surintendants, les surintendants adjoints, les inspecteurs et les surveillants employés par des provinces ou des conseils scolaires locaux, les psychologues, les travailleurs sociaux, les contrôleurs des présences et les autres personnes travaillant dans les services aux élèves ou qui se consacrent à d'autres tâches que l'enseignement, ainsi que les enseignants à temps partiel qui sont rémunérés à la journée. On s'est efforcé ici d'éviter le double emploi des postes d'enseignement, c'.-à-d., qu'un enseignant est compté à chaque poste à plein temps. Les différences entre les nombres d'enseignants déclarés par certaines provinces et les nombres indiqués dans le présent rapport sont dues, en grande partie, à cette définition de l'enquête.

L'enquête ne vise pas les enseignants employés dans les écoles privées ou dans les écoles spéciales qui relèvent directement des administrations provinciales.

Dans tous les tableaux du rapport, sauf les tableaux 2.6 et 2.7, on ne fait pas de distinction entre les enseignants des écoles séparées catholiques et ceux des écoles publiques. Les religieux sont, de même, inclus dans tous les tableaux, bien qu'ils puissent aussi être indiqués séparément, par ex. dans les tableaux 2.4 et 2.5.

Les enseignants inscrits dans la catégorie "non classés" dans certains des tableaux détaillés sont ceux qui ont renvoyé leur rapport, mais qui ont omis un ou plusieurs renseignements sur lesquels porte le tableau.

### Méthodologie

Toutes les provinces et les territoires ont participé à l'enquête, mais un nombre limité de données ont été obtenues au Québec et en Ontario.

Chaque enseignant des écoles publiques élémentaires et secondaires du Canada a été invité à remplir un questionnaire et à le remettre à son directeur (sa directrice). Les questionnaires ont ensuite été remis aux ministères de l'Éducation en cause, pour être transmis soit, à Statistique Canada pour le dépouillement, soit aux services informatiques locaux, selon la province concernée.

Les données ont été rassemblées directement par Statistique Canada en collaboration avec chacun des ministères provinciaux de l'Éducation dans les provinces de l'Atlantique, en Alberta et en Colombie-Britannique, ainsi qu'avec les ministères territoriaux de l'Éducation au Yukon et dans les Territoires du Nord-Ouest. En plus des écoles relevant des provinces et des territoires, des données analogues ont également été collectées dans les écoles relevant de l'administration fédérale et administrées par le ministère des Affaires indiennes et du Nord et par le ministère de la Défense nationale. Dans le cas du Manitoba et de la Saskatchewan, des données semblables ont été rassemblées par les ministères de l'Éducation respectifs et ont été transmises à Statistique Canada sur ruban magnétique; ces données ont été intégrées à celles qui avaient été recueillies directement par Statistique Canada afin de constituer la base du présent rapport.

## Definitions

- (a) In the context of this report "teacher" includes principals, vice-principals, department heads and subject supervisors unless otherwise specified.

Similarly, the term "principal" includes vice-principals and department heads.

- (b) Public schools are those schools which are operated by local school boards and which are supported by local taxation, supplemented by provincial grants in accordance with the education act of the province or territory in which they are located. Included under this definition are the denominational schools of Newfoundland, the Protestant and Roman Catholic Separate schools where such exist, and schools located on Department of National Defence stations across Canada since these operate within the framework of the public schools of the province where they are located. In several provinces the term "public school" is commonly used to designate schools other than separate schools.
- (c) Tenure is defined as experience with the present school board, which may or may not be continuous.
- (d) Teaching level - An attempt is made to classify teachers (according to the grade levels they teach and/or supervise) into an elementary or a secondary teaching level. It should be noted, however, that many teachers have teaching and/or supervisory responsibilities which cover both levels of education.

For statistical purposes the following definitions were used to arrive at "teaching level":

- (i) A teacher who teaches any grade or combination of grades, pre-grade 1-8 but no grades above 8 is classified as "elementary".
- (ii) A teacher who teaches any grade or combination of grades 9-13 but no grade below 9 is classified as "secondary".
- (iii) A teacher whose assignment does not fit into either of the two previous categories is classified as "secondary" if he/she teaches in a junior high school (7-9) or a junior-senior high school (7-13) or if he teaches in more than one school; otherwise he is classified as "elementary".

The above classifications apply to all jurisdictions except Quebec, British Columbia and the Yukon. In British Columbia and the Yukon, teachers of grades 1-7 are classified as "elementary", and teachers of grades 8-13 are classified as "secondary". In Quebec, teachers of grades 1-6 are classified as "elementary" while those teaching grades 7-11 are classified as "secondary".

Teachers who do not teach are classified according to the grades they supervise.

- (e) Certification - The certification "level" classification used in this report attempts to equate the various certificates in each of the provinces on the basis of the minimum number of years of academic and/or professional training required to obtain the certificates using the junior matriculation level (1) or equivalent as the base.

## Définitions

- (a) Dans le présent rapport, le mot "enseignant" comprend les directeurs, les directeurs adjoints, les chefs de département et les surveillants de matières, à moins d'indication contraire.

De même, le mot "directeur" comprend les directeurs adjoints et les chefs de département.

- (b) Les écoles publiques comprennent toutes celles qui relèvent des conseils scolaires locaux et qui sont financées par les impôts locaux, auxquels viennent s'ajouter des subventions provinciales en vertu de la Loi sur l'éducation de la province ou du territoire dans lequel ces écoles sont situées. Sont comprises dans cette définition les écoles confessionnelles de Terre-Neuve, les écoles séparées protestantes et catholiques romaines, là où il y en a, les écoles situées sur les bases militaires du ministère de la Défense nationale au Canada, car ces écoles sont considérées au même titre que les écoles publiques de la province dans laquelle elles sont situées. Dans plusieurs provinces, le terme d'"école publique" est utilisé couramment pour désigner les écoles qui ne sont pas des écoles séparées.
- (c) Les états de service comprennent les années d'expérience avec le conseil scolaire actuel, que ce soit un service continu ou non.
- (d) Niveau d'enseignement - on a tenté ici de classer les enseignants (selon les classes dans lesquelles ils enseignent et (ou) surveillent) à un niveau d'enseignement élémentaire ou secondaire. Il importe de retenir, toutefois, que beaucoup d'enseignants occupent des postes d'enseignement et (ou) de surveillance chevauchant les deux niveaux d'éducation.

Aux fins de la statistique, voici les définitions qui ont été utilisées pour définir le "niveau d'enseignement":

- (i) Un enseignant qui enseigne dans une ou plusieurs classes de la maternelle à la 8e année mais pas au-delà de la 8e année est classé au niveau "élémentaire".
- (ii) Un enseignant qui enseigne dans une ou plusieurs classes de la 9e à la 13e année mais pas au-dessous de la 9e année est classé au niveau "secondaire".
- (iii) Un enseignant dont le poste ne correspond ni à l'une ni à l'autre de ces deux catégories est classé au niveau "secondaire" s'il enseigne dans une école secondaire du premier cycle (7e à 9e) ou dans une école secondaire donnant le premier et le second cycle (7e à 13e) ou encore s'il enseigne dans plus d'une école; autrement, il est classé au niveau "élémentaire".

Ces catégories s'appliquent à toutes les juridictions sauf le Québec, la Colombie-Britannique et le Yukon. En Colombie-Britannique et au Yukon, les enseignants de la 1ère à la 7e année sont classés au niveau "élémentaire" et les enseignants de la 8e à la 13e année sont classés au niveau "secondaire". Au Québec, les enseignants de la 1ère à la 6e année sont classés au niveau "élémentaire" tandis que ceux de la 7e à la 11e année, sont classés au niveau "secondaire".

Les enseignants qui ne font pas d'enseignement sont classés selon les classes qu'ils surveillent.

- (e) Brevets - Le classement par "niveaux" de brevets utilisé dans ce rapport tente de mettre au même niveau les différents brevets des provinces en fonction du nombre minimum d'années de formation scolaire et (ou) pédagogique requise pour les brevets, en utilisant comme base l'immatriculation junior (1) ou l'équivalent.

For the period under review, only Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick have certificate schemes graduated for successive years of education. Currently, British Columbia issues only three certificates: Teaching Licence, Standard Certificate and Professional Certificate, corresponding to Statistics Canada Levels 2, 3 and 4 respectively, but old certificates have not been converted. As a result, most of the teachers reported certificates obtained under the old scheme which provided for a certificate for each successive year of education. In Alberta, only three certificates (Standard E, Standard S and Professional) are issued, the first two being granted after two years of the university education program (Statistics Canada Level 3) and the third after the third year (Statistics Canada Level 4). In Manitoba, two basic certificates only are issued (the First Class at the end of a one-year program after Grade XII and the Professional at the end of a one-year program after a bachelor's degree) corresponding to Statistics Canada Levels 2 and 5 respectively. In Saskatchewan, three certificates are issued corresponding to Statistics Canada Levels 2, 3 and 5.

- (f) Years of education approved for salary purposes — The number of years of education approved for salary purposes is defined as the minimum number of years of education beyond the equivalent of the junior matriculation level recognized for salary placement purposes. In the Atlantic Provinces the certification scheme performs this function. In the Western Provinces, separate mechanisms have been established to determine a teacher's qualifications and to place each teacher on a scale for grant and/or salary purposes. Every teacher, then, is assigned a numerical value which gives the number of years of education beyond secondary school graduation recognized for salary or grant purposes.

It was therefore decided to replace many of the tables previously produced on a "certificate level" basis by tables classified according to "years of education paid or approved for grant and/or salary purposes". It was felt that these tabulations would serve as a better guide to equate levels of education of the teaching profession than the certificate level tabulations.

- (g) Federal schools — Schools operated by the federal government for Indian and Eskimo pupils, administered by the Indian and Northern Affairs Department. Also included are Department of National Defence schools overseas.

In 1969-70, there existed 2 federal schools in the Yukon and 53 in the Northwest Territories operated by the Indian and Northern Affairs Department. By the beginning of the school year 1970-71, the administration of the Northwest Territories schools had been transferred to the newly established Territorial Department of Education in Yellowknife. The two Indian schools located in the Yukon had closed during the same period.

Historically, the teacher statistics for the federal schools located in Arctic Quebec have been included with the federal schools of the Northwest Territories. In the statistics for the school years 1970-71 and 1971-72 data for Arctic Quebec teachers are included with the Indian and Eskimo schools of the Province of Quebec. As of the school year 1970-71 all the territorial schools are classified as "public" and the user is cautioned to keep this in mind when making historical comparisons with previously published reports.

Pour l'année scolaire étudiée ici, seules les provinces de Terre-Neuve, de l'Île-du-Prince-Édouard, de la Nouvelle-Écosse et du Nouveau-Brunswick ont des régimes de brevets suivant les années successives d'enseignement. Ne sont délivrés à l'heure actuelle en Colombie-Britannique que trois brevets: la licence d'enseignement, le brevet général et le brevet professionnel qui correspondent respectivement aux niveaux 2, 3 et 4 de Statistique Canada. Mais les anciens brevets n'ont pas été transposés et, en conséquence, la plupart des enseignants ont déclaré des brevets obtenus sous l'ancien régime, soit un brevet pour chaque année d'études successive. En Alberta, ne sont délivrés que trois brevets (niveau E, niveau S et brevet professionnel), les deux premiers après deux années d'études universitaires (niveau 3 de Statistique Canada) et le troisième après trois années d'études (niveau 4 de Statistique Canada). Au Manitoba, deux brevets de base seulement sont délivrés (brevet de 1<sup>ère</sup> classe au terme d'une année d'études au-delà de la 12<sup>e</sup> année, et brevet professionnel au terme d'une année d'études au-delà du baccalauréat) qui correspondent respectivement aux Niveaux 2 et 5 de Statistique Canada. En Saskatchewan, il existe trois brevets qui correspondent aux niveaux 2, 3 et 5 de Statistique Canada.

- (f) Années d'études approuvées aux fins de la rémunération — Le nombre d'années d'études servant à déterminer la rémunération est le nombre minimum d'années d'études au-delà de l'équivalent de l'immatriculation junior reconnues aux fins de l'établissement des traitements. Dans les provinces de l'Atlantique, le régime de brevets joue ce rôle. Dans les provinces de l'Ouest, des régimes distincts ont été établis afin de déterminer les qualifications de l'enseignant et de situer chaque enseignant dans une échelle aux fins de l'établissement des subventions et (ou) des traitements. On attribue ensuite à chaque enseignant une valeur numérique indiquant le nombre d'années d'études au-delà du cycle secondaire reconnues aux fins de l'établissement des traitements ou des subventions.

Il a donc été décidé de remplacer plusieurs tableaux présentés antérieurement en fonction du "niveau de brevet" par des tableaux où la classification se fait selon les "années d'études payées ou approuvées aux fins de subvention et (ou) de traitement". On a jugé que ces tableaux seraient de meilleurs guides que les tableaux par niveaux de brevets pour mettre sur un pied d'égalité les niveaux d'études de la profession.

- (g) Écoles fédérales — Il s'agit des écoles pour élèves indiens et esquimaux qui relèvent de l'administration fédérale et sont administrées par le ministère des Affaires indiennes et du Nord. Elles comprennent également les écoles d'outre-mer relevant du ministère de la Défense nationale.

En 1969-70, il existait 2 écoles fédérales au Yukon et 53 dans les Territoires du Nord-Ouest; ces écoles relevaient du ministère des Affaires indiennes et du Nord. Au début de l'année scolaire 1970-71, l'administration des écoles des Territoires du Nord-Ouest a été transférée au nouveau ministère territorial de l'Éducation à Yellowknife. Les deux écoles pour Indiens ont fermé leurs portes au Yukon au cours de cette même période.

Les statistiques sur les enseignants des écoles fédérales situées près de l'Arctique, dans le nord du Québec ont, depuis des années, été incluses avec les statistiques sur les écoles fédérales des Territoires du Nord-Ouest. Dans les statistiques portant sur les années scolaires 1970-71 et 1971-72, les données sur les enseignants des écoles situées dans l'Arctique québécois sont incluses avec les données sur les écoles pour Indiens et Esquimaux de la province de Québec. À compter de l'année scolaire 1970-71, toutes les écoles territoriales sont classées dans la catégorie des écoles "publiques" et l'utilisateur devra en tenir compte lorsqu'il fera des comparaisons d'une période à l'autre avec les rapports publiés précédemment.

## Calculation Methods

- (a) Salary — Respondents were requested to report their annual salary to the nearest dollar. Median and percentile salaries were calculated from distributions having \$100 intervals. Teachers drawing no salary or those "unclassified" were excluded from the calculations. Wherever a column contained fewer than 30 teachers, percentiles and medians were not calculated.
- (b) Age — The questionnaire requested the date of birth of each respondent. In the tables of this report, age is considered as that reached by each individual during the calendar year and as such is considered as of December 31 of the year under review. For example, age data collected for the 1971-72 school year is calculated as of December 31, 1971.
- (c) Experience — Experience is calculated on the basis of 10 months teaching equaling one school year, (e.g., 7-8 indicates 7 years and 8 months, and is synonymous with 7.8 years). All experience is considered as of June 30 of the previous school year. The total number of years of experience reported by teachers in the 1971-72 school year is as of June 30, 1971.
- (d) Years since award of first and highest degrees — Information was requested on the year in which the first and highest degrees were obtained. As with age, the number of years since first and highest degrees was measured in relation to the calendar year of the year under review.

## Limitations

- (a) Salary data reported reflect annual contract salaries as of September for each school year. Since several salary contracts were still unresolved in September of each year and a number of contracts were negotiated retroactively covering periods of 1 1/2 to 2 years resulting in "apparently" large salary increases over the preceding year, caution must be exercised in the use of interprovincial and historical comparisons. In addition, it should be recognized that variations in median salary do not necessarily indicate variations in the salary schedules on which teachers are being paid. Since salaries are based on both years of training and years of teaching experience, changes in the teaching force reflecting either of these two factors could conceivably cause an increase in the median salary while the salary scale remained unchanged.
- (b) The teaching level classification must be viewed with caution when making interprovincial comparisons due to the fact that the proportion of teachers with teaching assignments covering both the elementary and secondary levels of education varies widely from one province to another. In addition, the teaching level classification was changed in 1968-69 thereby making invalid historical comparisons with the current classification being used. (See publications prior to 1968-69 for exact definitions previously in use.) The change in definition has resulted, for most provinces, in an increase in the proportion of teachers classified as "elementary".
- (c) As mentioned previously, the certificate classification levels used in this report do not adequately equate the levels of academic and/or professional training attained by the teaching profession. Comparisons of education levels inferred from certificate levels would only be valid if each province issued a certificate for each year of education beyond the secondary level.

## Méthodes de calcul

- (a) Traitement — On a demandé aux enquêtés de déclarer leur traitement annuel au dollar près. Les traitements médians et percentiles sont calculés à partir de répartitions par intervalles de \$100. Les enseignants sans traitement ou "non classés" sont exclus des calculs. Chaque fois qu'une colonne comprend moins de 30 enseignants, les percentiles et les médianes ne sont pas calculés.
- (b) Âge — Chaque enquêté devait inscrire sa date de naissance sur le questionnaire. Dans les tableaux de ce rapport, l'âge indiqué est l'âge atteint par chaque individu au cours de l'année civile c'est-à-dire au 31 décembre de l'année observée. Par exemple, les données sur l'âge collectées pour l'année scolaire 1971-72 sont calculées au 31 décembre 1971.
- (c) Expérience — L'expérience est calculée en fonction d'une période d'enseignement de 10 mois correspondant à une année scolaire (par ex., 7-8 signifie 7 années et 8 mois et est analogue à 7.8 années). Toute expérience est comptée au 30 juin de l'année scolaire précédente. Le nombre total d'années d'expérience déclaré par les enseignants pour l'année scolaire 1971-72 est compté au 30 juin 1971.
- (d) Nombre d'années écoulées depuis l'obtention du premier grade et du plus haut grade — On a demandé des renseignements sur l'année au cours de laquelle le premier grade et le plus haut grade ont été obtenus. Comme dans le cas de l'âge, le nombre d'années écoulées entre l'obtention du premier grade et du plus haut grade est mesuré par rapport à l'année civile de l'année observée.

## Limites

- (a) Les données sur les traitements traduisent les traitements contractuels annuels au mois de septembre pour chaque année scolaire. Il faut se montrer prudent en utilisant les comparaisons d'une province à l'autre et d'une période à l'autre, car plusieurs échelles de traitements contractuels étaient encore indéterminées au mois de septembre de chacune des années étudiées et certains contrats ont été négociés avec effet rétroactif et portaient sur des périodes de 1 1/2 à 2 ans, ce qui a entraîné, au cours de l'année précédente, des augmentations de traitement "apparemment" élevées. De plus, il y a lieu de signaler que les variations du traitement médian ne correspondent pas nécessairement à des variations des échelles de traitement des enseignants. Comme les traitements sont fondés sur les années de formation et les années d'expérience dans l'enseignement, la variation du personnel enseignant à l'un ou l'autre de ces points de vue peut fort bien entraîner un relèvement du traitement médian, l'échelle de traitement demeurant la même.
- (b) Le classement par niveau d'enseignement doit être interprété avec prudence lorsqu'il s'agit de comparer les données d'une province à l'autre, car la proportion des enseignants dont les fonctions chevauchent le niveau élémentaire et secondaire varie beaucoup d'une province à l'autre. De plus, le classement par niveau d'enseignement a été modifié en 1968-69 rendant impossibles, de ce fait, les comparaisons historiques avec le classement actuellement en usage. (Voir les publications antérieures à 1968-69 pour connaître les définitions exactes précédemment utilisées.) La modification de la définition a engendré, dans la plupart des provinces, une augmentation de la proportion des enseignants classés au niveau "élémentaire".
- (c) Comme nous l'avons mentionné auparavant, les niveaux de classement des brevets utilisés dans ce rapport ne correspondent pas exactement aux niveaux de formation scolaire et (ou) professionnelle atteints par le personnel enseignant. Les comparaisons entre les niveaux de formation (années d'études) et les niveaux de brevet ne seraient valides que si chaque province délivrait un brevet pour chaque année d'études au-delà des études secondaires.

- (d) The teachers employed in Arctic Quebec schools prior to 1970-71 were included with federal school teachers in the Northwest Territories. Commencing with the 1970-71 school year, these teachers are no longer included under the Northwest Territories but rather are included with teachers employed by the Department of Indian and Northern Affairs in the province of Quebec.

## REVIEW OF STATISTICS

The reader is cautioned to read the introductory sections pertaining to "Definitions" and "Limitations" prior to reading this section of the report.

### Highlights

#### Provincial Public Schools Staff

- (a) **Number of teachers** - The number of full-time teachers and principals in the provincially controlled public elementary-secondary schools of Canada has increased from 97,478 reported for the school year 1952-53 to 261,680 for 1971-72, reflecting an increase of almost 169%. The greatest percentage increase in the number of teachers for the period 1952-53 to 1971-72 was in the province of Ontario (217%), followed by British Columbia (213%), Alberta (187%), Quebec (168%), Newfoundland (143%), Prince Edward Island (121%), New Brunswick (99%), Nova Scotia (96%), and Saskatchewan (48%).

A comparison over the last two decades shows that the teaching force increased by 60% during the period 1950-51 to 1959-60, while the comparable increase from the period 1960-61 to 1969-70 was 68%.

An analysis of the year-to-year rates of growth over the last five years shows that the rate of growth for Canada has declined from 9.5% in 1967-68 to virtually zero growth (0.1%), in 1971-72. The absolute decline in the number of teachers for several provinces was revealed in the statistics for the school year 1971-72. The rates of growth in 1971-72 over the preceding year for each province ranged from a high of 3.3% in Newfoundland to a low of -2.4% in Saskatchewan, Nova Scotia, Ontario and Manitoba experienced negative growth rates for the comparable period under review.

The 261,680 full-time teachers employed in 1971-72 were distributed amongst the provinces as follows: Ontario (35.3%), Quebec (29.8%), British Columbia (8.5%), Alberta (7.8%), Manitoba (4.5%), Saskatchewan (4.1%), Nova Scotia (3.8%), New Brunswick (3.1%), Newfoundland (2.5%), and Prince Edward Island (0.6%).

- (b) **Sex** - The total of 91,192 teachers and principals in the 8 provinces (exclusive of Quebec and Ontario) in 1971-72 was comprised of 37,613 males and 53,579 females, (41.2% male and 58.8% female). The number of male teachers increased by 5.6% while the number of female teachers declined by 2.2%. As in previous years British Columbia had the highest proportion of male teachers (46.5%) and Prince Edward Island the lowest percentage (29.1%). The proportion of male teachers has been steadily increasing each year since 1950-51 with the largest gains made during the last decade.

- (d) Les enseignants employés dans les écoles de l'Arctique québécois avant 1970-71 sont inclus avec les enseignants des écoles fédérales des Territoires du Nord-Ouest. À compter de l'année scolaire 1970-71, ces enseignants sont inclus avec ceux employés par le ministère des Affaires indiennes et du Nord dans la province de Québec.

## EXAMEN DES DONNÉES STATISTIQUES

Avant de lire la présente section du rapport, nous suggérons au lecteur de lire les passages de l'introduction portant sur les définitions et les limites.

### Points saillants

#### Personnel de l'enseignement des écoles publiques provinciales

- (a) **Nombre d'enseignants** - Le nombre d'enseignants et de directeurs à plein temps dans les écoles publiques élémentaires et secondaires du Canada relevant des provinces est passé de 97,478 pour l'année scolaire 1952-53 à 261,680 pour 1971-72, ce qui représente une augmentation de près de 169%. C'est l'Ontario qui a accusé la plus forte augmentation en pourcentage (217 %) pour la période allant de 1952-53 à 1971-72, suivie de la Colombie-Britannique (213 %), de l'Alberta (187 %), du Québec (168 %), de Terre-Neuve (143 %), de l'Île-du-Prince-Édouard (121 %), du Nouveau-Brunswick (99 %), de la Nouvelle-Écosse (96 %) et de la Saskatchewan (48 %).

Une comparaison portant sur les vingt dernières années révèle que le personnel enseignant s'est accru de 60 % au cours de la période allant de 1950-51 à 1959-60, tandis que pour la période allant de 1960-61 à 1969-70, l'augmentation s'est chiffrée à 68 %.

Une analyse des taux de croissance d'une année à l'autre au cours des cinq dernières années révèle que le taux de croissance pour le Canada a baissé de 9.5 % en 1967-68 à près de zéro (0.1 %) en 1971-72. La diminution du nombre d'enseignants en chiffres absolus dans plusieurs provinces apparaît dans les statistiques sur l'année scolaire 1971-72. Pour chaque province, les taux de croissance enregistrés en 1971-72 par rapport à l'année précédente s'échelonnaient entre un maximum de 3.3 % à Terre-Neuve à un minimum de -2.4 % en Saskatchewan. La Nouvelle-Écosse, l'Ontario et le Manitoba ont enregistré une régression des taux de croissance au cours de la période correspondante.

Voici la répartition provinciale des 261,680 enseignants employés à plein temps en 1971-72: Ontario, 35.3 %; Québec, 29.8 %; Colombie-Britannique, 8.5 %; Alberta, 7.8 %; Manitoba, 4.5 %; Saskatchewan, 4.1 %; Nouvelle-Écosse, 3.8 %; Nouveau-Brunswick, 3.1 %; Terre-Neuve, 2.5 %; Île-du-Prince-Édouard, 0.6 %.

- (b) **Sexe** - Sur les 91,192 enseignants et directeurs des huit provinces (à l'exclusion du Québec et de l'Ontario) en 1971-72, 37,613 étaient des hommes et 53,579 étaient des femmes, (41.2 % d'hommes et 58.8 % de femmes). Le nombre d'hommes a augmenté de 5.6 % tandis que le nombre de femmes a diminué de 2.2 %. Comme par les années passées, c'est la Colombie-Britannique qui comptait la plus forte proportion d'hommes chez les enseignants (46.5 %) et l'Île-du-Prince-Édouard, le pourcentage le moins élevé (29.1 %). La proportion des hommes augmente de façon régulière chaque année depuis 1950-51, les hausses les plus élevées ayant été enregistrées au cours des dix dernières années.

An analysis over the last two decades for the same 8 provinces, shows that between 1950-51 and 1959-60 male teachers increased their proportion from 28.8% to 31.2% and during the period 1960-61 to 1969-70 their percentage share increased from 32.1% to 38.2%.

- (c) Teaching level - The proportion of teachers for the 8 provinces exclusive of Quebec and Ontario in 1971-72 who were instructing and/or supervising elementary grades (including kindergarten) was 63.3% while the corresponding per cent for secondary teachers was 36.7%. The number of elementary school teachers in 1971-72 decreased by 0.5%, while the number of secondary school teachers increased by 3.4% from the previous year.

In 1971-72 there were 57,739 teachers instructing and/or supervising grades at the elementary level, comprised of 15,492 men and 42,247 women. The number of male elementary teachers increased by 6.4% while the number of female elementary teachers in 1971-72 declined by 2.8% from the previous year. The number of secondary school teachers for the school year 1971-72 was 33,453, consisting of 22,121 males and 11,332 females. The number of male secondary teachers in 1971-72 increased by 5.0% over the preceding year, while the number of female secondary school teachers increased by 0.2% over the 1970-71 comparable figure.

- (d) Years of education approved for salary purposes - In 1971-72, of the 91,014 teachers and principals in the 8 provinces for which comparable data are available, the proportion of teachers with less than 3 years of academic and/or professional training (beyond the equivalent of the junior matriculation level) was 19.3% representing a decrease of 4.2 percentage points from the previous year. At the other end of the scale, the proportion of teachers with 5 years or more of academic and/or professional training in 1971-72 was 46.6% reflecting an increase of 3.8 percentage points over the comparable 1970-71 figure.

A disaggregation by teaching level and sex reveals, that in 1971-72, 9.4% of all male elementary school teachers had less than 3 years of academic and/or professional training, while 56.6% had 5 or more years of training. The proportion of female elementary school teachers in 1971-72 with less than 3 years of academic and/or professional training was 34.3%, whereas 20.4% had 5 or more years training.

At the secondary level, the proportion of male teachers and principals with less than 3 years of academic and/or professional training in 1971-72 was 3.4%, while 80.6% had 5 or more years training. The corresponding proportions for female secondary teachers in 1971-72 was 8.0% with less than 3 years training and 64.5% having 5 or more years training.

The tables on "years of education" show that, on the average, the proportion of female teachers with less academic and/or professional training is higher than that for males, at both the elementary and secondary levels.

- (e) University degrees - The proportion of teachers and principals in the 8 provinces who held one or more university degrees at the beginning of the school year 1971-72 was 52.3% representing an increase of 4.7 percentage points over the preceding school year. At the beginning of the school year 1970-71, 47.6% of all teachers held one or more university degrees, reflecting an increase of 4.5

Une analyse portant sur les vingt dernières années à l'égard de ces mêmes huit provinces révèle qu'entre 1950-51 et 1959-60, la proportion des hommes est passée de 28.8 % à 31.2 % et qu'au cours de la période allant de 1960-61 à 1969-70, elle est passée de 32.1 % à 38.2 %.

- (c) Niveau d'enseignement - La proportion des enseignants, dans les 8 provinces, à l'exclusion du Québec et de l'Ontario qui, en 1971-72, enseignaient et (ou) qui surveillaient dans les classes élémentaires (y compris la maternelle) était de 63.3 %, tandis que le pourcentage correspondant des enseignants dans les classes secondaires se chiffrait à 36.7 %. En 1971-72, le nombre d'enseignants au niveau élémentaire a baissé de 0.5 %, tandis qu'au niveau secondaire, il s'est accru de 3.4 % par rapport à l'année précédente.

En 1971-72, 57,739 personnes enseignaient et (ou) surveillaient dans les classes élémentaires, dont 15,492 hommes et 42,247 femmes. Le nombre d'hommes enseignant dans les écoles élémentaires a progressé de 6.4 %, en 1971-72, tandis que le nombre de femmes enseignant dans les classes élémentaires a baissé de 2.8 % par rapport à l'année précédente. Pour l'année scolaire 1971-72, les enseignants au niveau secondaire étaient au nombre de 33,453, dont 22,121 hommes et 11,332 femmes. En 1971-72, le nombre d'hommes enseignant au niveau secondaire s'est accru de 5.0 % par rapport à l'année précédente, tandis que le nombre de femmes enseignant au secondaire progressait de 0.2 %.

- (d) Nombre d'années d'études approuvées aux fins de la rémunération - En 1971-72, sur les 91,014 enseignants et directeurs des 8 provinces pour lesquelles des données comparables sont disponibles, 19.3 % des enseignants avaient moins de 3 ans de formation scolaire et (ou) professionnelle (au-delà de l'équivalent de l'immatriculation junior), ce qui représente une diminution de 4.2 points de pourcentage par rapport à l'année précédente. À l'autre extrémité de l'échelle, en 1971-72, 46.6 % des enseignants avaient 5 ans ou plus de formation scolaire et (ou) professionnelle, ce qui représente une augmentation de 3.8 points par rapport au taux correspondant de 1970-71.

Une répartition par niveau d'enseignement et par sexe révèle qu'en 1971-72, 9.4 % de tous les hommes enseignant au niveau élémentaire avaient moins de 3 ans de formation scolaire et (ou) professionnelle, tandis que 56.6 % avaient 5 ans ou plus de formation. La proportion des femmes enseignant au niveau élémentaire en 1971-72 et ayant moins de 3 ans de formation scolaire et (ou) professionnelle était de 34.3 %, tandis que 20.4 % des femmes avaient 5 ans ou plus de formation.

En 1971-72, au niveau secondaire, 3.4 % des enseignants et directeurs avaient moins de 3 ans de formation scolaire et (ou) professionnelle, tandis que 80.6 % avaient 5 ans ou plus de formation. Voici les chiffres correspondants pour les femmes en 1971-72: 8.0 % avaient moins de 3 ans de formation et 64.5 % avaient 5 ans ou plus de formation.

Les tableaux sur les "années d'études" indiquent qu'en moyenne, la proportion des femmes ayant moins de formation scolaire et (ou) professionnelle est plus élevée que celle des hommes, tant au niveau élémentaire qu'au niveau secondaire.

- (e) Diplômes universitaires - En 1971-72, 52.3 % des enseignants et directeurs dans les 8 provinces détenaient un ou plusieurs diplômes universitaires au début de l'année scolaire, ce qui représente une augmentation de 4.7 points de pourcentage par rapport à l'année scolaire précédente. Au début de l'année scolaire 1970-71, 47.6 % de tous les enseignants détenaient un ou plusieurs diplômes universitaires, ce qui représente une augmentation de 4.5 points

percentage points over the comparable figure for 1969-70. The proportion of male teachers holding at least one university degree in 1971-72 was 74.9% representing an increase of 3.4 percentage points over the previous year. The corresponding proportion for female teachers in 1971-72 was 36.3%, an increase of 4.2 percentage points over the 1970-71 comparable data.

A disaggregation by teaching level and sex in 1971-72 reveals that 36.8% of elementary teachers and principals held one or more university degrees (63.6% for males and 26.9% for females). At the secondary level, 79.0% of all teachers held at least one university degree (82.9% for males and 71.4% for females).

The highest proportion of teachers with one or more university degrees in 1971-72 was found in Alberta (63.2%) followed by British Columbia (59.9%), Manitoba (48.5%), Nova Scotia (45.6%), Saskatchewan (43.1%), New Brunswick (43.1%), Newfoundland (39.0%) and Prince Edward Island (35.9%).

The proportion of teachers with at least one university degree has been increasing steadily. In 1954-55 it was 21.9%; in 1959-60, 24.7%; in 1963-64, 30.4%; in 1970-71, 47.6%; and in 1971-72, 52.3%.

- (f) Total teaching experience - The median teaching experience for all teachers and principals as of the beginning of the 1971-72 school year was 7-5 years, a slight increase from 7-3 years shown for the two preceding years. There was a considerable variation in the total median teaching experience for the eight provinces, ranging from 5-7 years in Newfoundland to 8-6 years in Saskatchewan. The median teaching experience for all male teachers in 1971-72 was 7-4 years, ranging from 5-5 years in Prince Edward Island to 8-8 years in British Columbia. The median teaching experience for all female teachers in 1971-72 was 7-6 years, ranging from 5-7 years in Newfoundland and Manitoba to 10-1 years in Prince Edward Island and Nova Scotia.

A disaggregation by teaching level and sex, shows that the median teaching experience for all elementary teachers in 1971-72 was 7-7 years (7-3 for men and 7-9 for women) slight changes from the previous two years. At the secondary level the median teaching experience for all teachers in 1971-72 was 7-2 years, (7-5 years for men and 6-6 years for women).

The median years of teaching experience for women was higher than that for men in all provinces except Manitoba and British Columbia where the median experience for men teachers was higher at both the elementary and secondary levels of teaching.

- (g) Tenure - The median tenure (experience with present school board) for all teachers and principals in 1971-72 was 3-9 years (4-0 years for men and 3-9 years for women) an increase of 0-4 years for all teachers over the previous year. There was a wide variation in the median tenure from province to province ranging from 2-6 years in Newfoundland to 4-4 years in New Brunswick. Newfoundland male teachers had the lowest median tenure (2-5 years) while male teachers in British Columbia had the highest median tenure (4-8 years). The lowest median tenure for female teachers in 1971-72 was in Newfoundland (2-6 years) whereas female teachers in Nova Scotia and New Brunswick had the highest median tenure for females (4-8 years). A disaggregation by teaching level and sex shows that the median tenure for all elementary teachers and

par rapport au taux correspondant de 1969-70. En 1971-72, 74.9 % des hommes détenaient au moins un diplôme universitaire, ce qui représente une augmentation de 3.4 points de pourcentage par rapport à l'année précédente. En 1971-72, 36.3 % des femmes détenaient au moins un diplôme universitaire, ce qui représente une augmentation de 4.2 points par rapport aux données correspondantes de 1970-71.

Une répartition par niveau d'enseignement et par sexe en 1971-72 révèle que 36.8 % des enseignants et directeurs au niveau élémentaire détenaient un ou plusieurs diplômes universitaires (63.6 % des hommes et 26.9 % des femmes). Au niveau secondaire, 79.0 % de tous les enseignants détenaient au moins un diplôme universitaire (82.9 % des hommes et 71.4 % des femmes).

En 1971-72, la plus forte proportion d'enseignants détenant un ou plusieurs diplômes universitaires a été enregistrée en Alberta (63.2 %) suivie de la Colombie-Britannique (59.9 %), du Manitoba (48.5 %), de la Nouvelle-Écosse (45.6 %), de la Saskatchewan (43.1 %), du Nouveau-Brunswick (43.1 %), de Terre-Neuve (39.0 %) et de l'Île-du-Prince-Édouard (35.9 %).

La proportion des enseignants détenant au moins un diplôme universitaire a augmenté de façon régulière. En 1954-55, elle était de 21.9 %; en 1959-60, de 24.7 %; en 1963-64, de 30.4 %; en 1970-71, de 47.6 %; et en 1971-72, de 52.3 %.

- (f) Expérience totale dans l'enseignement - Au début de l'année scolaire 1971-72, la médiane de l'expérience dans l'enseignement de tous les enseignants et directeurs était de 7-5 années, ce qui représente une légère augmentation par rapport au nombre déclaré pour les deux années précédentes (7-3 années). La médiane de l'expérience totale dans l'enseignement variait de beaucoup entre les huit provinces, s'échelonnant entre 5-7 années à Terre-Neuve et 8-6 années en Saskatchewan. En 1971-72, l'expérience médiane dans l'enseignement de tous les hommes était de 7-4 années, s'échelonnant entre 5-5 années dans l'Île-du-Prince-Édouard et 8-8 années en Colombie-Britannique. Chez les femmes cette médiane était, en 1971-72, de 7-6 années, s'échelonnant entre 5-7 années à Terre-Neuve et au Manitoba et 10-1 années dans l'Île-du-Prince-Édouard et en Nouvelle-Écosse.

Une répartition par niveau d'enseignement et par sexe révèle qu'en 1971-72, l'expérience médiane de tous les enseignants du niveau élémentaire était de 7-7 années (7-3 années chez les hommes et 7-9 années chez les femmes), ce qui représente de légères variations par rapport aux deux années précédentes. Au niveau secondaire, l'expérience médiane de tous les enseignants en 1971-72 était de 7-2 années (7-5 années chez les hommes et 6-6 années chez les femmes).

Le nombre médian d'années d'expérience dans l'enseignement chez les femmes était plus élevé que chez les hommes dans toutes les provinces sauf au Manitoba et en Colombie-Britannique, où le nombre médian d'années d'expérience dans l'enseignement chez les hommes était plus élevé tant au niveau élémentaire qu'au niveau secondaire.

- (g) États de service (service courant) - Le service courant médian (expérience acquise avec le conseil scolaire actuel) de tous les enseignants et directeurs en 1971-72 était de 3-9 années (4-0 années chez les hommes et 3-9 années chez les femmes), ce qui représente une augmentation de 0-4 année pour tous les enseignants par rapport à l'année précédente. Le service courant médian variait beaucoup d'une province à l'autre, s'échelonnant entre 2-6 années à Terre-Neuve et 4-4 années au Nouveau-Brunswick. C'est Terre-Neuve qui accuse le service courant médian le moins élevé chez les hommes (2-5 années), tandis que la Colombie-Britannique accuse le service courant médian le plus élevé chez les hommes (4-8 années). En 1971-72, c'est à Terre-Neuve que le service courant médian chez les femmes était le moins élevé (2-6 années), tandis qu'il était le plus élevé en Nouvelle-Écosse et au Nouveau-Brunswick (4-8 années). Une répartition par niveau d'enseignement et par

principals in 1971-72 was 4-0 years (3-8 for men and 4-0 for women). At the secondary level the median tenure for all teachers and principals in 1971-72 was 3-8 years (4-1 for men and 3-3 for women).

The trend emerging at both the elementary and secondary levels is for higher retention rates with the present school board.

- (h) **Salaries** — It should be recognized that variations in median salaries do not necessarily indicate variations in the salary schedules on which teachers are being paid. Since salary scales are based on both years of education and years of teaching experience, increases in the teaching force on either of these two factors could conceivably cause an increase in the median salary while the salary scale remained constant. For this reason, caution should be exercised in the use of the median value for interprovincial and historical comparisons unless the effects of other contributing factors can be isolated and measured.

The median salary for all teachers and principals in the public elementary and secondary schools of the eight provinces exclusive of Quebec and Ontario in 1971-72 was \$8,525 representing an increase of 10.9% over the preceding year. The median salary for male teachers was \$10,072 and that for female teachers was \$7,766 reflecting increases of 9.2% for men and 10.0% for women, over the 1970-71 median salaries.

A disaggregation by type of school, teaching level and sex reveals the following:

- (i) The median salary for male public elementary school teachers (excluding R.C. separate school teachers) in 1971-72 was \$9,279, while that for female public elementary school teachers was \$7,479. This represented increases of 9.9% for males and 11.2% for females from the 1970-71 median salaries. The median salary for male public secondary school teachers (excluding R.C. separate school teachers) in 1971-72 was \$10,608 and that for female public secondary teachers was \$9,111, representing increases of 9.0% and 10.3% respectively.
- (ii) The median salary for male elementary school teachers in R.C. separate schools in 1971-72 was \$10,069, while that for female teachers was \$7,483, reflecting increases of 7.0% for males and 4.0% for females. At the secondary level the median salary for male teachers in R.C. separate schools in 1971-72 was \$10,741, whereas the median for female teachers was \$8,981, representing an increase of 7.6% for males, but a slight decrease of 0.8% for females from the preceding year.

The average salary (arithmetic mean) for all teachers and principals in 1971-72 was \$9,064, an increase of 10.5% over the previous year's average salary. The average salary for those teachers classified as principals was \$12,259 while that for those classified as teachers was \$8,515; reflecting increases of 9.3% and 11.0% respectively.

sex révèle que le service courant médian pour tous les enseignants et directeurs du niveau élémentaire, en 1971-72, était de 4-0 années (3-8 années chez les hommes et 4-0 années chez les femmes). Au niveau secondaire, en 1971-72 le service courant médian pour tous les enseignants et directeurs était de 3-8 années (4-1 années chez les hommes et 3-3 années chez les femmes).

Tant au niveau élémentaire qu'au niveau secondaire, la tendance du taux de persévérance au sein du conseil scolaire actuel est à la hausse.

- (h) **Traitements** — Il y a lieu de signaler que les variations du traitement médian ne correspondent pas nécessairement à des variations des échelles de traitement des enseignants. Comme les échelles de traitement sont fondées sur la scolarité et l'expérience dans l'enseignement, l'évolution des caractéristiques du personnel enseignant à l'un ou l'autre de ces points de vue peut fort bien entraîner un relèvement du traitement médian, l'échelle de traitement demeurant la même. Aussi faut-il être prudent lorsqu'on utilise la valeur médiane aux fins de comparaisons d'une province à l'autre ou d'une période à l'autre, à moins de pouvoir isoler et mesurer les autres facteurs qui entrent en ligne de compte.

En 1971-72, le traitement médian de tous les enseignants et directeurs des écoles publiques élémentaires et secondaires des huit provinces, autres que le Québec et l'Ontario, était de \$8,525, ce qui représente une augmentation de 10.9 % par rapport à l'année précédente. Le traitement médian des hommes était de \$10,072 et celui des femmes, de \$7,766, ce qui représente des augmentations de 9.2 % chez les hommes et de 10.0 % chez les femmes par rapport aux traitements médians versés en 1970-71.

Une répartition par type d'école, par niveau d'enseignement et par sexe révèle que:

- (i) En 1971-72, le traitement médian des hommes enseignant dans les écoles publiques élémentaires (à l'exclusion des hommes enseignant dans les écoles catholiques séparées) était de \$9,279, tandis que celui des femmes enseignant dans les écoles publiques élémentaires était de \$7,479. Cela représentait des augmentations de 9.9 % chez les hommes et de 11.2 % chez les femmes par rapport aux traitements médians versés en 1970-71. Le traitement médian des hommes enseignant dans les écoles publiques secondaires (à l'exclusion des hommes enseignant dans les écoles catholiques séparées) en 1971-72 était de \$10,608 et celui des femmes, enseignant dans les écoles publiques secondaires, de \$9,111, ce qui représente des augmentations de 9.0 % et de 10.3 % respectivement.
- (ii) En 1971-72, le traitement médian des hommes enseignant dans les écoles catholiques séparées élémentaires était de \$10,069, tandis que celui des femmes était de \$7,483, ce qui représente des augmentations de 7.0 % chez les hommes et de 4.0 % chez les femmes. En 1971-72, au niveau secondaire, le traitement médian des hommes enseignant dans les écoles catholiques séparées était de \$10,741, tandis que celui des femmes était de \$8,981, ce qui représente une augmentation de 7.6 % chez les hommes, mais une légère diminution de 0.8 % chez les femmes, par rapport à l'année précédente.

En 1971-72, le traitement moyen (moyenne arithmétique) de tous les enseignants et directeurs était de \$9,064, ce qui représente une augmentation de 10.5 % par rapport au traitement moyen versé l'année précédente. Le traitement moyen des enseignants classés comme directeurs était de \$12,259, tandis que ceux qui étaient classés comme enseignants recevaient \$8,515, ce qui représente des augmentations de 9.3 % et de 11.0 % respectivement.

An analysis by teaching level shows that the average salary for elementary school principals increased by 10.4% while that for teachers increased by 11.8% from the 1970-71 average salaries. At the secondary level, the average salary of secondary school principals increased by 7.7% while that for secondary teachers increased by 9.3%, from the preceding year.

An analysis of average salaries according to the size of the employing school board reveals that the average salary generally increases directly with the size of school board. In 1971-72, the average salary for all teachers and principals was highest for those teachers employed by school boards employing 2,000 or more teachers (\$10,532) followed by the size group 1,000-1,999 (\$9,689); 500-599 (\$8,976); 100-499 (\$8,681) and finally the group less than 100 teachers (\$8,366). However, it must be noted that the average salary increases by size of school board do not necessarily reflect higher salary scales for the larger school boards, but are also related to the training and experience of the staff. Teachers in the larger boards tend to have more training and teaching experience than their counterparts in the smaller school boards.

Average salaries for secondary school teachers are much higher than those of elementary school teachers. This phenomenon can be almost entirely attributed to experience and training differences as similar salary scales exist for all teaching staffs within any given school board.

Une analyse par niveau d'enseignement révèle que le traitement moyen des directeurs des écoles élémentaires a augmenté de 10.4 %, tandis que celui des enseignants a progressé de 11.8 % par rapport aux traitements moyens versés en 1970-71. Au niveau secondaire, le traitement moyen des directeurs d'écoles a augmenté de 7.7 %, tandis que celui des enseignants a progressé de 9.3 % par rapport à l'année précédente.

Une analyse des traitements moyens selon l'importance du conseil scolaire local en cause révèle que, de façon générale, le traitement moyen augmente directement en fonction de l'importance du conseil scolaire. En 1971-72, le traitement moyen de tous les enseignants et directeurs était plus élevé pour les enseignants des conseils scolaires employant 2,000 enseignants ou plus (\$10,532), suivis des enseignants des conseils scolaires employant de 1,000 à 1,999 enseignants (\$9,689), puis des enseignants des conseils scolaires employant de 500 à 599 enseignants (\$8,976); ensuite, des enseignants des conseils employant de 100 à 499 enseignants (\$8,681) et, en dernier lieu, des enseignants des conseils scolaires employant moins de 100 enseignants (\$8,366). Toutefois, il y a lieu de signaler que l'augmentation du traitement moyen en fonction de l'importance du conseil scolaire ne traduit pas nécessairement des échelles de traitement plus élevées dans les conseils scolaires importants, mais elle est également reliée à l'expérience et à la formation du personnel. Les enseignants des conseils importants ont habituellement une meilleure formation et une plus grande expérience dans l'enseignement que leurs homologues des conseils scolaires moins importants.

Les enseignants du niveau secondaire reçoivent des traitements beaucoup plus élevés que les enseignants du niveau élémentaire. Ce phénomène est presque entièrement attribuable aux différences de formation et d'expérience, car il existe des échelles de traitement analogues pour tout le personnel enseignant d'une commission scolaire donnée.

(i) Province or country of initial teaching certificate - The teaching force of Canada has always had a considerable proportion of teachers who received their initial certificates from outside of the province of their current employment. In 1971-72, for the 8 provinces exclusive of Quebec and Ontario, 17.7% of all teachers and principals held initial certificates from a province or country outside of their current province of employment. The proportion of teachers holding their initial certificate from a province or country other than their current province of employment ranged from a low of 7.3% in New Brunswick to a high of 27.9% for Alberta.

(j) Recruitment and losses - At the beginning of the school year 1971-72, the proportion of teachers retained from the previous year's teaching force was 86.5% for the 9 provinces (including Ontario) for which data are available. The retention rate varied from a high of 90.4% in British Columbia to a low of 80.7% in Newfoundland. Of the total number of teachers lost from the 1970-71 school year, 35% returned to household duties; 12% left to teach outside their province of previous employment; 16% returned to further their education; 18% were employed outside the field of education and 19% left for other reasons. On the recruitment side, of the 22,412 teachers recruited during the summer of 1971, 64% were recruited from educational institutions; 5% from the teaching forces of another province or country and 31% from other occupations or activities. The net increase of staff, for the 9 provinces over the previous year was 607 or 2.7% of all recruitments.

(i) Province ou pays où le premier brevet d'enseignement a été obtenu - Le personnel enseignant du Canada a toujours compté une proportion considérable d'enseignants ayant reçu leur premier brevet dans une province autre que leur province d'emploi. En 1971-72, dans les 8 provinces autres que le Québec et l'Ontario, 17.7 % de tous les enseignants et directeurs avaient obtenu des brevets dans une province ou dans un pays autre que leur province d'emploi. La proportion d'enseignants ayant reçu leur premier brevet dans une province ou dans un pays autre que leur province d'emploi s'échelonnait entre un minimum de 7.3 % au Nouveau-Brunswick et un maximum de 27.9 % en Alberta.

(j) Recrutement et départs - Au début de l'année scolaire 1971-72, le taux de persévérance du personnel enseignant de l'année précédente était de 86.5 % dans les neuf provinces (à l'exclusion de l'Ontario) pour lesquelles des données sont disponibles. Le taux de persévérance variait entre un maximum de 90.4 % en Colombie-Britannique et un minimum de 80.7 % à Terre-Neuve. Sur le nombre total d'enseignants partants enregistré pour l'année scolaire 1970-71, 35 % ont quitté le marché du travail; 12 % ont quitté leur province d'emploi pour aller enseigner ailleurs; 16 % ont repris leurs études; 18 % ont obtenu un emploi ailleurs que dans l'enseignement et 19 % sont partis pour d'autres raisons. Pour ce qui est du recrutement, sur les 22,412 enseignants recrutés au cours de l'été de 1971, 64 % venaient des établissements d'enseignement; 5 %, étaient membres du personnel enseignant d'une autre province et 31 % avaient antérieurement une autre profession ou exerçaient une autre activité. L'augmentation nette du nombre d'enseignants dans les neuf provinces par rapport à l'année précédente s'est chiffrée à 607, soit 2.7 % du nombre total d'enseignants recrutés.

Territorial and Federal Schools Staff

(a) Yukon -

- (i) In 1971-72, there were 247 elementary-secondary school teachers employed in the Yukon representing an increase of approximately 11% over the previous school year.
- (ii) The median salary for all teaching staff in the Yukon for the school year 1971-72 was \$11,400 reflecting an increase of 7.4% over the preceding school year. The median salary for elementary teachers was \$10,833 while secondary teachers had a median salary of \$12,250, representing increases of 8.9% and 6.7% respectively from the median salaries for 1970-71.
- (iii) The proportion of Yukon teachers holding one or more university degrees in 1971-72 was 54.9%, an increase of 4.2 percentage points from the previous school year. The proportion of men with university degrees was 81.5% compared with 33.8% for women. At the elementary school level 44.6% of the teachers had one or more university degrees whereas 79.2% of all secondary teachers had at least one university degree.
- (iv) The median total teaching experience for all teachers employed in the Yukon during the school year 1971-72 was 6-7 years representing a slight increase over the preceding year. The median experience for elementary school teachers was 6-5 years (no change from the previous school year), while secondary school teachers had a median experience of 7-7 years reflecting an increase of 0-8 years over the 1970-71 median experience.
- (v) In 1971-72 the majority of the Yukon teaching staff (70.4%) obtained their initial teaching certificates from the Western provinces.

(b) Northwest Territories -

- (i) The number of elementary-secondary teachers employed by the government of the Northwest Territories in 1971-72 was 587, an increase of 14% over the preceding year.
- (ii) The median salary of all teaching staff for the school year 1971-72 was \$11,663 representing an increase of 8.1% over the median salary for the preceding school year. The median salary for elementary teachers was \$11,243, whereas secondary teachers had a median salary of \$13,325, increases of 6.1% for elementary teachers and 10.7% for secondary teachers over the preceding school year.
- (iii) The proportion of teachers and principals in the Northwest Territories in 1971-72 holding one or more university degrees was 48.0% reflecting an increase of 2.3 percentage points from the preceding year. The proportion of male teachers holding one or more university degrees in 1971-72 was 61.7% compared with 35.8% for females. At the elementary level 41.5% of the teaching staff held at least one university degree, while 76.4% of all secondary teachers held one or more university degrees.
- (iv) The median total teaching experience for all teachers and principals in 1971-72 was 6-4 years, a moderate increase over the previous year. Elementary school teachers in 1971-72 had a median experience of 6-2 years compared with 7-5 years for their counterparts at the secondary level.

Personnel de l'enseignement des écoles territoriales et fédérales

(a) Yukon -

- (i) En 1971-72, les écoles du Yukon comptaient 247 enseignants aux niveaux élémentaire et secondaire, ce qui représente une augmentation d'environ 11 % par rapport à l'année scolaire précédente.
- (ii) Pour l'année scolaire 1971-72, le traitement médian de tout le personnel enseignant au Yukon était de \$11,400, ce qui représente une augmentation de 7.4 % par rapport à l'année scolaire précédente. Le traitement médian des enseignants du niveau élémentaire était de \$10,833, tandis que celui des enseignants du niveau secondaire était de \$12,250, ce qui représente une augmentation de 8.9 % et de 6.7 % respectivement, par rapport aux traitements médians versés en 1970-71.
- (iii) En 1971-72, 54.9 % des enseignants du Yukon détenaient un ou plusieurs diplômes universitaires, ce qui représente une augmentation de 4.2 points de pourcentage par rapport à l'année scolaire précédente: 81.5 % des hommes et 33.8 % des femmes détenaient des diplômes universitaires. Au niveau élémentaire, 44.6 % des enseignants détenaient un ou plusieurs diplômes universitaires, tandis que 79.2 % des enseignants du niveau secondaire détenaient au moins un diplôme universitaire.
- (iv) Pour l'année scolaire 1971-72, la médiane du total de l'expérience de tous les enseignants du Yukon était de 6-7 années, ce qui représente une légère augmentation par rapport à l'année précédente. L'expérience médiane des enseignants du niveau élémentaire était de 6-5 années (aucune variation par rapport à l'année précédente), tandis que celle des enseignants du niveau secondaire était de 7-7 années ce qui représente une augmentation de 0-8 années par rapport à l'expérience médiane enregistrée en 1970-71.
- (v) En 1971-72, la plupart des enseignants du Yukon (70.4 %) avaient obtenu leur premier brevet d'enseignement dans les provinces de l'Ouest.

(b) Territoires du Nord-Ouest -

- (i) En 1971-72, les enseignants des niveaux élémentaire et secondaire employés par le gouvernement des Territoires du Nord-Ouest étaient au nombre de 587, soit 14 % de plus que l'année précédente.
- (ii) Pour l'année scolaire 1971-72, le traitement médian de tout le personnel enseignant était de \$11,663, ce qui représente une augmentation de 8.1 % par rapport au traitement médian versé l'année précédente. Le traitement médian des enseignants du niveau élémentaire était de \$11,243, tandis que les enseignants du niveau secondaire ont reçu un traitement médian de \$13,325, ce qui représente une augmentation de 6.1 % pour les enseignants de l'élémentaire et de 10.7 % pour ceux du secondaire par rapport à l'année scolaire précédente.
- (iii) En 1971-72, 48.0 % des enseignants et directeurs Territoires du Nord-Ouest détenaient un ou plusieurs diplômes universitaires, ce qui représente une augmentation de 2.3 points de pourcentage par rapport à l'année précédente. En 1971-72, 61.7 % des hommes détenaient un ou plusieurs diplômes universitaires comparativement à 35.8 % des femmes. Au niveau élémentaire, 41.5% de tous les enseignants détenaient au moins un diplôme universitaire, tandis que 76.4 % de tous les enseignants du secondaire détenaient un ou plusieurs diplômes universitaires.
- (iv) En 1971-72, la médiane des années d'expérience de tous les enseignants et directeurs était de 6-4 années, ce qui représente une modeste augmentation par rapport à l'année précédente. Les enseignants du niveau élémentaire possédaient une expérience médiane de 6-2 années en 1971-72, tandis que leurs homologues du niveau secondaire avaient une expérience médiane de 7-5 années.

- (v) In 1971-72 the majority of the teachers employed in the Northwest Territories (52%) obtained their initial teaching certificates from Ontario, Saskatchewan and Alberta.

- (v) En 1971-72, la plupart des enseignants des Territoires du Nord-Ouest (52 %) avaient obtenu leur premier brevet d'enseignement en Ontario, en Saskatchewan et en Alberta.

(c) Indian and Eskimo schools -

(c) Écoles pour Indiens et Esquimaux -

- (i) The number of elementary-secondary school teachers employed in schools administered by the Indian and Northern Affairs Department in 1971-72 was 1,292 representing an increase of 6.4% over the previous school year. Indian and Eskimo schools were operating in all provinces except for the province of Newfoundland.
- (ii) The median salary for all teachers employed in Indian and Eskimo schools was \$8,067, representing a 3.2% increase from the preceding year.
- (iii) The proportion of teachers and principals in Indian and Eskimo schools holding one or more university degrees in 1971-72 was 33.3%, (47.6% for males and 26.4% for females). At the elementary level 33.0% of all teachers held at least one university degree compared with 56.3% for secondary teachers.
- (iv) The median total teaching experience for all teachers in Indian and Eskimo schools in 1971-72 was 7-5 years, a moderate increase over the previous school year.
- (v) The teachers in the Indian and Eskimo schools generally receive their initial teaching certificates from the province in which they are employed. The largest proportion of teachers (54%) obtained their initial certificate from the provinces of Ontario, Saskatchewan and Manitoba.

- (i) En 1971-72, 1,292 enseignants des niveaux élémentaire et secondaire étaient employés dans des écoles relevant du ministère des Affaires indiennes et du Nord, soit 6.4 % de plus que l'année précédente. Des écoles pour Indiens et Esquimaux existaient dans toutes les provinces, sauf à Terre-Neuve.
- (ii) Le traitement médian de tous les enseignants des écoles pour Indiens et Esquimaux était de \$8,067, ce qui représente une augmentation de 3.2 % par rapport à l'année précédente.
- (iii) En 1971-72, 33.3 % des enseignants et directeurs des écoles pour Indiens et Esquimaux détenaient un ou plusieurs diplômes universitaires (47.6 % des hommes et 26.4 % des femmes). Au niveau élémentaire, 33.0 % de tous les enseignants détenaient au moins un diplôme universitaire comparativement à 56.3 % des enseignants du niveau secondaire.
- (iv) L'expérience médiane de tous les enseignants des écoles pour Indiens et Esquimaux en 1971-72 était de 7-5 années, ce qui représente une légère augmentation par rapport à l'année scolaire précédente.
- (v) De façon générale, les enseignants des écoles pour Indiens et Esquimaux reçoivent leur premier brevet d'enseignement dans leur province d'emploi. La plupart des enseignants (54 %) ont obtenu leur premier brevet en Ontario, en Saskatchewan ou au Manitoba.

(d) DND schools (overseas) -

(d) Écoles du M.D.N. (outre-mer) -

- (i) There were 302 elementary-secondary school teachers employed in the DND schools (overseas) in 1971-72, reflecting a decrease of 15% from the previous school year.
- (ii) The median salary for all teachers and principals employed in DND schools (overseas) in 1971-72 was \$10,125 representing an increase of 9.0% from the preceding year.

- (i) En 1971-72, il y avait 302 enseignants des niveaux élémentaire et secondaire dans les écoles du M.D.N. (outre-mer), ce qui représente une diminution de 15 % par rapport à l'année scolaire précédente.
- (ii) Le traitement médian de tous les enseignants et directeurs employés dans des écoles du M.D.N. (outre-mer) en 1971-72 était de \$10,125, soit 9.0 % de plus que l'année précédente.

- The median salary for all elementary teachers was \$10,070 compared with \$12,214 for secondary teachers, reflecting increases of 14.6% and 7.1% respectively from the preceding school year.
- (iii) The proportion of all teachers in DND schools (overseas) holding one or more university degrees in 1971-72 was 66.9%, representing a 10.0 percentage point increase over the previous year. The percentage of males holding at least one university degree was 85% compared with 50% for females. At the elementary level, 56.6% of all teachers held one or more university degrees compared with 95.1% for their colleagues at the secondary level.
- (iv) The median total teaching experience for all teachers in DND schools (overseas) in 1971-72 was 8-8 years representing an increase of 0-4 years over the preceding year. The median experience for all elementary teachers was 8-7 years compared with a median of 9-2 years for secondary teachers. This represented increases of 0-4 years for elementary teachers and 0-7 years for secondary teachers over the 1970-71 median experience.

- Le traitement médian était de \$10,070 pour tous les enseignants du niveau élémentaire et de \$12,214 pour ceux du secondaire, ce qui représente une augmentation de 14.6 % et de 7.1 % respectivement par rapport à l'année scolaire précédente.
- (iii) En 1971-72, 66.9 % de tous les enseignants des écoles du M.D.N. (outre-mer) détenaient un ou plusieurs diplômes universitaires, ce qui représente une augmentation de 10.0 points de pourcentage par rapport à l'année précédente. La proportion des hommes et des femmes détenant au moins un diplôme universitaire était de 85 % et de 50 % respectivement. Au niveau élémentaire, 56.6 % de tous les enseignants détenaient un ou plusieurs diplômes universitaires comparativement à 95.1 % de leurs homologues du niveau secondaire.
- (iv) La médiane du total des années d'expérience de tous les enseignants des écoles du M.D.N. (outre-mer) en 1971-72 était de 8-8 années, ce qui représente une augmentation de 0-4 année par rapport à l'année précédente. L'expérience médiane de tous les enseignants du niveau élémentaire était de 8-7 années comparativement à 9-2 années pour les enseignants du niveau secondaire. Cela représente une augmentation de 0-4 année chez les enseignants de l'élémentaire et de 0-7 année chez ceux du secondaire, par rapport à l'expérience médiane enregistrée en 1970-71.
- (v) En 1971-72, la plupart des enseignants (53 %) des écoles du M.D.N. (outre-mer) avaient obtenu leur premier brevet d'enseignement ou en Ontario, ou en Colombie-Britannique.

- (v) The majority of the teachers (53%) in DND (overseas) schools in 1971-72 obtained their initial certificates in Ontario and British Columbia.

## Quebec Public School Teaching Staff

Data for the province of Quebec are shown in a separate section of this publication for the following reasons:

- (i) The definition of professional personnel included in the Quebec tables is not consistent with that in use for other provinces.
- (ii) Several of the cross-tabulations available are in form of grouped data and do not allow for comparable breakdowns with that being used for the other provinces. The breakdowns in use for the other provinces are being maintained for historical comparison purposes.

## General Information

The information for the tables selected was obtained from the publication Statistiques de l'enseignement, 1969-70 and 1970-71, published by the Quebec Department of Education.

A "Personnel" form was forwarded at the beginning of each school year to all educational establishments in Quebec, with the exception of the universities. All the personnel forming part of the professional teaching staff at the pre-university levels were required to fill out the form.

- (a) Breakdown of the people covered by the survey - The survey only takes into consideration those persons with either regular employment as opposed to casual employment or full-time employment as opposed to part-time employment or non-supply as opposed to supply, and who are exercising a duty which entitles them to be qualified as "a member of the administrative staff" or "a teacher".
- (b) Position held - This variable includes two categories: (1) the members of the administrative staff and (2) teachers.

In 1969-70 the classification system used to classify the professional teaching personnel was changed from "principal position held" to "highest position held".

If the individual has both an administrative position and a teaching position, only the administrative position has been considered, and he (she) is shown as a "member of the administration".

In addition to the change in classification, teachers working in the field of sports and recreation have been included in the survey resulting in a sharp increase in 1969-70 of 2,567 persons who were not included in the statistical data for previous school years.

The change in the method of classifying "position held", produced the following results:

- (i) A change of some several hundred persons in the classification of the professional teaching personnel.
- (ii) An important increase in the number of personnel in the "administrative staff" category and a decrease in the "teacher" category.
- (c) Administrative status of the institution - Two kinds of institutions have been recognized the public sector institutions and the private sector institutions. Only the public sector institutions will be considered in the selected tables for this section of the report.

## Personnel professionnel de l'enseignement au Québec

Les données sur la province au Québec figurent dans une section distincte de cette publication pour les raisons suivantes:

- (i) La définition du personnel professionnel dont il est question dans les tableaux sur le Québec ne correspond pas à celle qui est en usage à l'égard des autres provinces.
- (ii) Plusieurs des recoupements dont nous disposons sont présentés sous forme de données regroupées et ne se prêtent pas à des ventilations comme celles qui sont utilisées pour les autres provinces. Les ventilations utilisées à l'égard des autres provinces ont pour but de permettre des comparaisons d'une période à l'autre.

## Généralités

Les renseignements figurant dans les tableaux choisis proviennent de la brochure intitulée "Statistiques de l'enseignement", 1969-70 et 1970-71, publiée par le ministère de l'Éducation du Québec.

Un formulaire a été expédié au début de chaque année scolaire à tous les établissements d'enseignement pré-universitaires du Québec. Un exemplaire de ce formulaire devait être rempli par chacune des personnes qui composent le personnel professionnel de l'enseignement des niveaux pré-universitaires.

- (a) Identification de la population recensée - Les compilations présentées ne tiennent compte que des personnes qui détiennent un statut d'emploi ou régulier par opposition à occasionnel, ou à plein temps par opposition à temps partiel, ou non suppléant par opposition à suppléant, et qui exercent une fonction qui permet de les qualifier "membre de la direction" ou "enseignant".
- (b) La fonction exercée - Deux catégories sont retenues pour cette variable: (1) membre de la direction et (2) enseignant.

En 1969-70, on a modifié les principes de classification du personnel professionnel de l'enseignement: la "fonction principale exercée" est devenue la "fonction exercée la plus élevée".

Si l'individu occupe une fonction de direction et une fonction d'enseignant, seule la fonction de direction est retenue et il est qualifié "membre de la direction".

En plus des modifications apportées aux principes de dénombrement, les enseignants qui oeuvrent dans le secteur des sports et des loisirs ont été inclus dans l'enquête, ce qui a provoqué, en 1969-70, une augmentation subite de 2,567 personnes qui n'avaient pas fait l'objet des données statistiques sur les années scolaires antérieures.

La modification des principes de dénombrement selon la "fonction la plus élevée" a donné les résultats suivants:

- (i) Un changement de l'ordre de quelques centaines de personnes dans le dénombrement du personnel professionnel de l'enseignement.
- (ii) Une augmentation importante d'effectifs pour la catégorie "membre de la direction" et une diminution d'effectifs pour la catégorie "enseignant".
- (c) Le statut administratif de l'institution - Deux types d'institutions sont distingués les institutions du secteur public et les institutions du secteur privé. Les tableaux choisis pour cette section du rapport ne porteront que sur les institutions du secteur public.

The public sector includes:

- (i) Schools belonging to school boards
- (ii) General and Vocational Colleges (CEGEP)
- (iii) Teacher training schools
- (iv) Technical and trade schools
- (v) Agricultural schools and institutes of agricultural technology
- (vi) Schools for exceptional children
- (vii) Associate institutions
- (viii) Conservatories

- (d) Teaching levels - Pre-elementary - Kindergarten, Elementary - Grades 1 to 7, Secondary - from Secondary 1 to Secondary V.

The above teaching levels are the only levels selected for this report, i.e., the collegial level has been excluded.

- (e) Official teaching diplomas - The diplomas and certificates (whether they were issued by the Central Board of Examiners, the former Department of Public Instruction or more recently, by the Department of Education) have been grouped into classes, with each class being made up of the diplomas which required equal educational training. The grouping was based on the diplomas granted by the Department of Education and those which were being granted until recently by the Education Department.
- (f) University degrees - In order to facilitate the compiling of the data, a grading system was set up for the university degrees in order to establish which degree was the most important one to be considered in the cases where individuals had more than one university degree. The grading system provided the following classification:

- (i) Doctorate and Ph.D.
- (ii) Master's Degree
- (iii) Bachelor's Degree

The data compiled only considered the degrees granted by a university.

- (g) Years of experience - Data on experience for the school year 1969-70 have the 1969-70 school year added to the previous years experience as an additional year. In 1970-71, the 1970-71 school year was added to the previous years of experience as an additional year.
- (h) Age - The reference date for the calculating of age is at June 30 of the preceding school year, e.g., data for the 1970-71 school year have June 30, 1970 as the reference date.

Calculation Methods

- (a) Age - The median age by teaching level was calculated from single years of age. However, the median age for "total teachers" had to be re-calculated to delete the category "collegial" from the "total teachers". Since the data were only available in the form of grouped data, the median age for "total teachers" has been calculated from distributions having 5-year age groups. Personnel who did not report their age were excluded from the calculations. The average age was also re-calculated to remove the "collegial" category from the "total teachers".

- (b) Experience - The median experience by teaching level was calculated by single years of experience. However, the median experience for "total teachers" was re-calculated to delete the "collegial" category from the "total teachers". Since data were only available in the form of grouped data, the median experience for "total teachers" was

Le secteur public comprend:

- (i) les écoles des commissions scolaires
- (ii) les Collèges d'Enseignement Général et Professionnel (CEGEP)
- (iii) les écoles normales
- (iv) les écoles techniques et les écoles de métiers
- (v) les écoles d'agriculture et les instituts de technologie agricole
- (vi) les écoles pour l'enfance exceptionnelle
- (vii) les institutions associées
- (viii) les conservatoires

- (d) Niveaux d'enseignement - Pré-élémentaire: maternelle; élémentaire: de la 1<sup>ère</sup> à la 7<sup>e</sup> année; secondaire: du secondaire I au secondaire V.

Le présent rapport ne vise que les niveaux d'enseignement susmentionnés; le niveau collégial est exclu.

- (e) Brevets officiels d'enseignement - L'ensemble des diplômes et des brevets (qu'ils aient été émis par le Bureau central des examinateurs, l'ancien département de l'Instruction publique ou, plus récemment, par le ministère de l'Éducation) ont été regroupés en classes, chacune des classes étant formée des diplômes ayant requis une formation pédagogique équivalente. Ces regroupements ont été opérés sur la base des diplômes décernés par le ministère de l'Éducation et de ceux qui étaient décernés encore tout récemment par le département de l'Instruction publique.

- (f) Le diplôme universitaire - Afin de faciliter la préparation des compilations, une hiérarchie dans les diplômes a été retenue pour décider du diplôme à considérer comme le plus important dans le cas des personnes détenant plus d'un diplôme universitaire. Cette hiérarchie réside dans la classification suivante:

- (i) Doctorat et Ph.D.
- (ii) Maîtrise et licence
- (iii) Baccalauréat.

Les compilations ne tiennent compte que des diplômes décernés par une université.

- (g) Les années d'expérience - Les données sur l'expérience acquise pendant l'année scolaire 1969-70 comprennent l'expérience des années antérieures. En 1970-71, l'année d'expérience que permettait d'acquérir l'année scolaire 1970-71 a été ajoutée à l'expérience antérieure.
- (h) Âge - La date de référence pour le calcul de l'âge est le 30 juin de l'année scolaire précédente; par ex., la date de référence des données sur l'année scolaire 1970-71 est le 30 juin 1970.

Méthodes de calcul

- (a) Âge - L'âge médian par niveau d'enseignement a été calculé en fonction des années d'âge individuelles. Toutefois, l'âge médian du "nombre total d'enseignants" a dû être calculé une seconde fois afin d'exclure la catégorie du niveau "collégial" du "nombre total d'enseignants". Puisque les données n'ont pu être obtenues que sous forme de regroupements, l'âge médian du "nombre total d'enseignants" est calculé selon une répartition par groupe d'âge de 5 ans. Les enseignants qui n'ont pas déclaré leur âge ont été exclus des calculs. L'âge moyen a également été calculé une seconde fois afin d'éliminer la catégorie du niveau "collégial" du "nombre total d'enseignants".

- (b) Expérience - L'expérience médiane par niveau d'enseignement a été calculée en fonction des années d'expérience individuelles. Toutefois, l'expérience médiane du "nombre total d'enseignants" a été calculée une seconde fois afin d'exclure la catégorie du niveau "collégial" du "nombre total d'enseignants". Puisque les données n'ont pu être obtenues que sous forme de regroupements, l'expérience médiane du

re-calculated from distributions having intervals of 5 years experience. Personnel who did not report their experience were excluded from the calculations. The average teaching experience was also re-calculated to remove the "collegial" category from the "total teachers".

(c) Number of teachers - The total number of professional teaching personnel employed in the province of Quebec in the school year 1970-71 was 77,978 representing an increase of 0.7% from the previous school year. Of the total 77,978 personnel in 1970-71, the category "teaching personnel" accounted for 70,364 or 90.2% with "administrative personnel" accounting for 7,614 or 9.8%. A distribution of "total personnel" by sex shows that female staff account for 64.7%. However, a further breakdown by position shows that 66.7% of the "administrative personnel" are male, whereas, only 31.9% of the "teaching personnel" are male.

(d) Civil status - In 1970-71 "lay personnel" accounted for 91.3% of total personnel with "religious personnel" accounting for the remaining 8.7%. The percentage of male "religious personnel" was 24.8% compared with 36.3% for "lay personnel". The proportion of the administrative staff classified as "religious personnel" was 19.0% compared with 7.6% similarly classified for the category "teaching personnel". The proportion of "religious personnel" at the elementary (including pre-elementary) level was 7.7% compared with 13.0% at the secondary level.

(e) University degrees - In 1970-71 the percentage of "total personnel" with one or more university degrees was 25.7%, (47% for males and 14% for females). The percentage of "administrative personnel" with at least one university degree was 54.4% compared with 22.6% for the category "teaching personnel". The percentage of "religious personnel" with one or more university degrees was 36.4% compared with 24.7% for "lay personnel". A further disaggregation of "total personnel" by teaching level shows that 17.1% of the elementary (including pre-elementary) have at least one university degree compared with 41.7% at the secondary level.

(f) Certification - An analysis of certificate types held shows that in 1970-71 43.2% of "total personnel" held the "Certificate A (Class 1) and Certificate B (Superior)"; followed by "Certificate B (Class 2)", 31.4%; "Certificate C (Class 3)", 3.2%; "other certificates and educational diplomas", 15.6%; "no official education diploma", 3.6%. The percentage of "administrative personnel" with a "Certificate A or Class 1" was 55% compared with 36% for the category "teaching personnel".

(g) Teaching experience - The median teaching experience for "total personnel" in 1970-71 was 8 years. The median years experience for personnel classified as "administrative staff" was 15 years compared with a median of 7 years for "teaching personnel". A disaggregation by position and sex shows that for those personnel classified as "administrative staff", male personnel had a median experience of 15 years compared with 20 years for female staff. A further breakdown of "administrative personnel" by teaching level reveals that "pre-elementary" staff had a median experience of 16 years compared with 20 years for "elementary personnel" and 13 years for "secondary personnel". An analysis of "teaching personnel" shows that the median experience of male personnel was 5 years while female personnel had a median experience of 8 years. A further breakdown by teaching level reveals that the median experience of "pre-elementary" teachers was 5 years compared with 8 years for "elementary" teachers and 6 years for "secondary" teachers.

"nombre total d'enseignants" a été calculée une seconde fois selon une répartition par intervalles de 5 ans d'expérience. Les enseignants qui n'ont pas déclaré leur expérience ont été exclus des calculs. L'expérience moyenne a également été calculée une seconde fois afin d'éliminer la catégorie du niveau "collégial" du "nombre total d'enseignants".

(c) Nombre d'enseignants - Pour l'année scolaire 1970-71, le personnel professionnel de l'enseignement de la province de Québec se chiffrait au total à 77,978 personnes, ce qui représente une augmentation de 0.7 % par rapport à l'année scolaire précédente. De ce total enregistré en 1970-71, la catégorie "enseignant" représentait 90.2 %, soit 70,364 personnes et la catégorie "membre de la direction", 9.8 %, soit 7,614 personnes. Une répartition par sexe révèle que les femmes constituaient 64.7 % du "total du personnel". Toutefois, une nouvelle répartition par fonction indique que 66.7 % des "membres de la direction" sont des hommes, alors que seulement 31.9 % des "enseignants" sont des hommes.

(d) État civil - En 1970-71, les "laïcs" constituaient 91.3 % du total du personnel et les "religieux", représentaient les 8.7 % restant. La proportion des hommes chez les "religieux" était de 24.8 % comparativement à 36.3 % chez les "laïcs". Les membres de la direction comptaient 19.0 % de "religieux", tandis que les "enseignants" n'en comptaient que 7.6 %. Au niveau élémentaire (y compris le niveau pré-élémentaire), il y avait 7.7 % de "religieux", alors que le secondaire en comptait 13.0 %.

(e) Diplômes universitaires - En 1970-71, 25.7 % du "total du personnel" (47 % des hommes et 14 % des femmes) détenaient un ou plusieurs diplômes universitaires. Parmi les "membres de la direction", 54.4 % détenaient au moins un diplôme universitaire, comparativement à 22.6 % chez les "enseignants". La proportion des "religieux" détenant un ou plusieurs diplômes universitaires était de 36.4 % comparativement à 24.7 % chez les "laïcs". Une autre répartition du "total du personnel" par niveau d'enseignement révèle que 17.1 % des enseignants du niveau élémentaire (y compris le niveau pré-élémentaire) détenaient au moins un diplôme universitaire comparativement à 41.7 % au niveau secondaire.

(f) Brevets - Une analyse des types de brevets détenus indique qu'en 1970-71, 43.2 % du "total du personnel" détenaient le "brevet A (classe 1)" et le "brevet B (supérieur)"; 31.4 % détenaient le "brevet B (classe 2)"; 3.2 %, le "brevet C (classe 3)"; 15.6 %, d'"autres brevets et diplômes pédagogiques"; 3.6 % étaient "sans diplôme pédagogique officiel". La proportion des "membres de la direction" détenant un "brevet A ou classe 1" était de 55 % comparativement à 36 % dans la catégorie des "enseignants".

(g) Expérience dans l'enseignement - En 1970-71, l'expérience médiane dans l'enseignement du "total du personnel" était de 8 années. Le nombre médian d'années d'expérience du personnel classé dans la catégorie des "membres de la direction" était de 15 années contre 7 années chez les "enseignants". Une répartition par fonction et par sexe révèle que chez le personnel classé dans la catégorie des "membres de la direction", les hommes possédaient une expérience médiane de 15 années contre 20 années pour les femmes. Une autre répartition des "membres de la direction" par niveau d'enseignement indique que le personnel du niveau "pré-élémentaire" avait une expérience médiane de 16 années comparativement à 20 années pour le personnel du niveau "élémentaire" et à 13 années pour celui du niveau "secondaire". Une analyse du "personnel enseignant" révèle que l'expérience médiane des hommes était de 5 années, tandis que celle des femmes était de 8 années. Une autre répartition par niveau d'enseignement indique que l'expérience médiane des enseignants du niveau "pré-élémentaire" était de 5 années, celle des enseignants du niveau "élémentaire", de 8 années et celle des enseignants du niveau "secondaire", de 6 années.

(1) Ontario figures revised to include full-time itinerant teachers from 1960-61 on; Quebec figures revised from 1965-66 to 1969-70. — Les chiffres de l'Ontario ont été révisés, afin d'inclure les enseignants itinérants à plein temps, à compter de 1960-61; les chiffres du Québec ont été révisés de 1965-66 à 1969-70.

(2) Estimate. — Estimation.

(3) Decrease reflects a change in definition of secondary grades in Quebec. — Cette baisse résulte du changement apporté à la définition des classes secondaires au Québec.
